SUNSHINE® MIX PF

Professional Growing Mix
Perlite Free – now with Natural Peatland Aggregate

Note: Renderings are for marketing purposes only.
Existing corporate packaging will be used for thermal print sticker to identify the SKU.

Product Overview / Description

SUNSHINE® MIX PF is a new product for growers who require a perlite-free mix. This blended mix contains grower grade sphagnum peat moss and natural peatland aggregate.

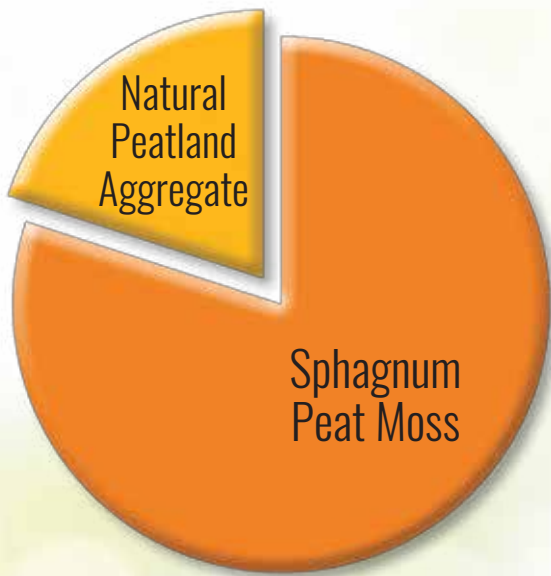

This combination will provide optimum aeration, moisture retention and porosity for plant roots.

Sun Gro® Horticulture is North America's largest producer of Sphagnum Peat Moss
