RESiLIENCE® – a beneficial plant substance that may make a plant stronger*!

Plants grown with our RESiLIENCE® mixes may result in*:

- Earlier flowering
- Better root growth
- Longer time before wilting
- Increased stem diameter
- Quicker recovery from infrequent watering

* Results will vary by the kind of plant you grow and how you grow it.
NORTH AMERICAN HORTICULTURAL LEADERSHIP

Sun Gro® Horticulture is one of the most prominent North American horticultural companies, employing over 900 staff and serving customers worldwide.

Since its humble beginnings in 1929, it has become the leading supplier of soilless growing mixes to North America’s top 100 greenhouse and nursery growers, shipping over 70,000 truckloads of product annually for professional and retail markets.

Sun Gro products are made to exacting standards and conform to high product quality and performance criteria.
Sun Gro offers brands, which are held to the high industry standards of its professional lines. These include well known industry names like **Black Gold**, **Sunshine** and **Sunshine Mix #4**.

Each brand has a distinct set of characteristics that sets it apart from the rest; among them you will find a wide array of potting, specialty mixes and garden soil amendments.

Many are OMRI Listed® products approved for organic gardening.

Sun Gro’s Canadian production facilities are Veriflora Certified for sustainability, and as a founding member of the Canadian Sphagnum Peat Moss Association, Sun Gro practices sustainable peatland management.
WHAT’S IN THE MIX?

We all know the importance of using superior professional growing mixes to get the best results. It’s critical in the plants you sell - and it’s critical to your customers. If your customers choose plants grown in superior mixes, they can grow vigorous gardens; and become repeat customers.

Sun Gro professional and retail products are made with premium ingredients and meet the highest quality standards.

The major role of a growing mix is to support plants, while holding water, air, and nutrients to promote vigorous growth. The following is a brief overview of each of the quality components Sun Gro may use in our mix formulations.

‘ORGANIC’ PRODUCTS

Organic products are defined by Sun Gro as ingredients that are carbon based, were once alive and are without the addition of synthetic chemicals. Some examples are peat moss, bark, organic fertilizers and organic wetting agents.

‘NATURAL’ PRODUCTS

Other components such as perlite, vermiculite, gypsum, limestone and RESiLIENCE® silicon are defined as ‘natural’ which means they are not carbon based but they are obtained from natural deposits and processed without the use of synthetic chemicals - these materials are mined, ground up and screened; and expanded in the case of vermiculite and perlite.
<table>
<thead>
<tr>
<th>#</th>
<th>Material</th>
<th>What Is It?</th>
<th>What Does It Do?</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Canadian Sphagnum Peat Moss</td>
<td>Sphagnum peat moss for growing media comes from the non-living, fibrous sphagnum moss that has partially decomposed in a bog. It’s light and spongy and crumbles into small clumps.</td>
<td>Peat moss has a remarkable ability to efficiently hold water and nutrients that may otherwise leach out of the soil. It’s nature’s best all-purpose soil conditioner, which is why Sun Gro adds it to all key professional and retail mixes.</td>
</tr>
<tr>
<td>2</td>
<td>Bark</td>
<td>Aged or composted bark comes from the forest product industry. The bark is shredded or chipped and then aged or composted to make it a higher value mix component.</td>
<td>When added to growing mix, aged or composted bark increases air capacity and drainage. Its unique particle size and shape allows air to circulate through the soil, improving oxygen availability to plant roots.</td>
</tr>
<tr>
<td>3</td>
<td>Perlite</td>
<td>Perlite is derived from crushed volcanic rock, which is expanded (popped) in a furnace. Perlite particles are lightweight, roundish and white.</td>
<td>Perlite is a natural additive for growing media used to aerate mixes and enhance drainage.</td>
</tr>
<tr>
<td>4</td>
<td>Coir</td>
<td>Coir is a byproduct of the coconut fiber industry. Coir is the dust that is produced during the processing of coconut fiber.</td>
<td>Coir adds bulk and texture to potting mixes and can hold up to nine times its weight in water.</td>
</tr>
<tr>
<td>5</td>
<td>Compost</td>
<td>Compost is decomposed organic material.</td>
<td>Compost is added to mixes to provide natural, stabilized organic matter. It also has excellent water-holding ability and provides carbon to stimulate microbial activity.</td>
</tr>
<tr>
<td>6</td>
<td>RESiLIENCE®</td>
<td>RESiLIENCE is Sun Gro’s brand name for growing mixes enriched with silicon. Silicon is an abundant element naturally found in soils.</td>
<td>Silicon (Si) is a beneficial plant substance for growing medium or soil that can enhance plant quality. RESiLIENCE® plant growth effects may include thicker/stronger stems, more compact growth, increased root mass and improved resistance to wilting.</td>
</tr>
<tr>
<td>7</td>
<td>Earthworm Castings</td>
<td>Earthworm castings (vermicompost) are the organic waste products from earthworms. Earthworms consume organic matter, and their castings are collected for soil enrichment.</td>
<td>Castings from earthworms are nutrient rich and biologically active. They are used to enrich mixes and garden soils for improved plant performance.</td>
</tr>

Black Gold® Potting Mixes, Peat Moss and Garden Fertilizers

Black Gold® is one of the most successful garden centre brands in the US - offering quality soils, amendments and fertilizers since 1983. It has become the preferred brand of choice among organic gardening enthusiasts – those that expect the best quality and results.

All Black Gold Mixes are made to the same exacting standards as the Sun Gro professional lines and formulated with the highest quality ingredients by professional horticulturists.

Our fertilizers are easy to use, environmentally friendly, formulated with natural & organic ingredients such as feather meal, blood meal, bone meal and sulfate of potash.

Retailers can sell Black Gold mixes and fertilizers with confidence knowing that the finest ingredients and formulations have been developed to ensure maximum results for their customers.

Homeowners will be delighted with the high quality and exceptional value of Black Gold. Whether it’s flower or vegetable gardens or containers, Black Gold creates gardening success.
**Black Gold® Enriched All Purpose Potting Mix 0.13-0.04-0.13**

- Nutrient-rich blend of peat moss, earthworm castings, compost and perlite
- Great for indoor and outdoor houseplants
- Provides superior moisture retention, excellent drainage
- Specially formulated with a controlled release fertilizer that feeds plants for up to six months

**Available Sizes:**
- 12.0 L (150/pallet), 28.3 L (80/pallet), 56.0 L bag (45/pallet)

**Ingredients:** Canadian Sphagnum peat moss, bark, compost, perlite, earthworm castings, dolomite lime and a controlled release fertilizer

---

**Black Gold® Moisture Supreme Container Mix**

- A premium potting mix containing coir which retains and slowly disseminates water, so you don’t have to water as often
- Great choice for container plantings that are more difficult to water daily
- Formulated for patio pots, hanging baskets, window boxes and other large containers

**Available Sizes:**
- 28.3 L (80/pallet), 56.0 L bag (45/pallet)

**Ingredients:** Canadian Sphagnum peat moss, bark, coconut coir, perlite, dolomite lime and an organic wetting agent

---

**Black Gold® Natural & Organic Potting Mix**

- Made from the finest ingredients for organic gardening
- Recommended for all your organic growing needs
- Enriched with earthworm castings and perlite
- Contains a mix of peat moss and compost in addition to an organic fertilizer to ensure optimum growth
- OMRI Listed® - for organic gardening

**Available Sizes:**
- 28.3 L (80/pallet), 56.0 L bag (45/pallet)

**Ingredients:** Canadian Sphagnum peat moss, perlite, bark, compost, earthworm castings, dolomite lime and an organic wetting agent
Black Gold® Garden Compost Mix

- All-natural and organic and rich in organic matter
- Offers a mixture of peat moss and compost to improve soil moisture retention, aeration and drainage
- OMRI Listed® - for organic gardening

Available Sizes:
28.3 L (80/pallet), 56.0 L bag (45/pallet)

Ingredients: Canadian Sphagnum peat moss, bark, compost

Black Gold® Just Coir

- This natural soil amendment with high water-holding capacity is pure, processed, coconut coir
- The highest quality coir is reconstituted into a user-friendly, ready-to-use growing amendment
- OMRI Listed® - for organic gardening

Available Sizes:
56.0 L bag (45/pallet)

Ingredients: Coconut coir

Black Gold® Seedling Mix

- Highly refined organic seedling mix is an excellent growing medium for newly germinated seedlings
- Fine textured, water retentive yet porous, and low salt
- Includes an organic wetting agent to ensure uniform water penetration
- OMRI Listed® - for organic gardening

Available Sizes:
20.0 L (120/pallet)

Ingredients: Canadian Sphagnum peat moss, perlite, dolomite lime and an organic wetting agent
Black Gold® Mix #4

- Ideal for house plants, indoor herb gardens, garden beds and outdoor containers which may need maximum drainage
- Professional quality, ready to use growing mix formulated with the same ingredients professional growers rely on
- Perlite provides optimum pore and air space

Available Sizes:
3.0 CFC/85 L (35/pallet)

Ingredients: Canadian sphagnum peat moss, perlite, dolomite lime

Black Gold® Peat Moss

- 100% Canadian Sphagnum Peat Moss - the best all-purpose natural soil conditioner
- Mix liberally with garden soil to improve water retention and aeration
- Suited to acid-loving plants
- May slightly lower the pH of more alkaline soils
- OMRI Listed® - for organic gardening

Available Sizes:
3.0 CFC/85 L (35/pallet)

Ingredients: Canadian Sphagnum peat moss
GARDEN FERTILIZERS

Black Gold® All Purpose Fertilizer
5-5-5

- Suited to nearly all crops, including vegetables, ornamentals, fruit trees and small woody plants
- Formulated with natural and organic nutrients
- Contains a balanced blend of the three macro-nutrients: nitrogen, phosphorus and potassium

Available Sizes:
1.8 kg pouch (12/cs; 36 cs/pallet)

Ingredients: Alfalfa meal, blood meal, bone meal, feather meal, kelp meal, sulfate of potash

Black Gold® Tomato & Vegetable Fertilizer
4-5-3

- Will make any edible garden thrive with its carefully formulated blend of natural fertilizers
- Contains both quick- and slow-release components
- Apply seasonally to increase yield in organic vegetable gardens and container plantings
- The non-burning formula is safe to use on tender plants

Available Sizes:
1.8 kg pouch (12/cs; 36 cs/pallet)

Ingredients: Sulfate of potash, kelp meal, feather meal, bone meal, blood meal, alfalfa meal

Black Gold® Rose & Flower Fertilizer
4-6-2

- Roses and other flowering ornamentals will flourish with this blend
- Formulated with higher Phosphorus, the essential nutrient for rooting and blooming; and nitrogen for vigorous early stem growth

Available Sizes:
1.8 kg pouch (12/cs; 36 cs/pallet)

Ingredients: Alfalfa meal, blood meal, bone meal, feather meal, kelp meal, sulfate of potash
GARDEN FERTILIZERS

Black Gold® Rhododendron, Azalea & Evergreen Fertilizer 5-5-3
- Formulated for citrus, avocados, grapes and fruit trees
- Promotes both vigorous growth and fruiting in container-grown specimens as well as in-ground plantings

Available Sizes:
1.8 kg pouch (12/cs; 36 cs/pallet)

Ingredients:
Cottonseed meal, blood meal, bone meal, feather meal, kelp meal, sulfate of potash

Black Gold® Starter & Transplant Fertilizer 3-5-3
- Formulated to promote strong root growth after planting
- Balanced, non-burning blend offers a readily available supply of nutrients and natural endomycorrhizae
- Helps growing plants to become better established and more effectively access soil nutrients and water

Available Sizes:
1.8 kg pouch (12/cs; 36 cs/pallet)

Ingredients:
Sulfate of potash, feather meal, bone meal, proprietary blend of endomycorrhizae

All Sunshine Mixes are formulated with premium quality sphagnum peat moss and - depending on the product - contain micronutrients, controlled release fertilizers, water holding crystals and/or organic wetting agents.
Sunshine® Container Mix
- For bedding plants, window boxes, patio containers & hanging baskets
- Specially formulated with a controlled release fertilizer for long-term plant growth
- Long-lasting water holding gel ensures improved water availability to plants
- Ideal for hanging baskets, containers and window boxes
- Blend of Canadian Sphagnum peat moss, perlite, water holding crystals, starter fertilizer and controlled release fertilizer

Available Sizes:
28.3 L (80/pallet), 56.0 L bag (45/pallet)

Ingredients:
Canadian Sphagnum peat moss, perlite, dolomite lime, water holding crystals, starter fertilizer and controlled release fertilizer

Sunshine® All-Purpose Potting Mix
- Multi-purpose blend formulated for a wide range of outdoor and indoor projects
- Great for rejuvenating existing houseplants and new mixed planters
- Formulated with premium quality Canadian Sphagnum peat moss
- Ideal for indoor and outdoor gardening and seed germination

Available Sizes:
28.3 L (80/pallet)

Ingredients:
Canadian Sphagnum peat moss, perlite and dolomite lime

Sunshine® Natural & Organic Potting Mix
- Developed using professional quality ingredients
- Popular peat-lite formula with organic wetting agent and nutrients
- Essential product for environmentally conscious consumers
- Blend of Canadian Sphagnum peat moss, perlite and organic wetting agent
- Ideal for vegetables, herbs and starting seeds
- OMRI Listed®

Available Sizes:
28.3 L (80/pallet)

Ingredients:
Canadian Sphagnum peat moss, perlite, dolomite lime and organic wetting agent

Sunshine® – The Professional Growers’ Brand
POTTING MIXES AND PEAT MOSS

Sunshine® Professional Potting Mix
- Blends with native garden soil to improve aeration, moisture retention and drainage
- Concentrated peat moss provides gentle acidification of soil
- Wetting agent helps save water by optimizing moisture uptake and retention
- Ideal for hanging baskets, containers and window boxes
- Blend of Canadian Sphagnum peat moss, perlite and controlled release fertilizer

Available Sizes:
56.0 L bag (45/pallet)

Ingredients: Canadian Sphagnum peat moss, perlite, dolomite lime, water holding crystals, starter fertilizer and controlled release fertilizer

Sunshine® Garden & Landscape Planting Mix
- Ideal for flowers and vegetable gardens, lawns, trees and shrubs
- Blend of humus, Canadian Sphagnum peat moss, and compost

Available Sizes:
70.8L (45/pallet)

Ingredients: Canadian Sphagnum peat moss, composted bark and compost

Sunshine® Canadian Sphagnum Peat Moss
- 100% Canadian Sphagnum peat moss
- Suited to acid-loving plants
- Can slightly lower the pH of more alkaline soils
- Compressed bales for convenient storage and easy handling
- Improves soil water retention and aeration
- OMRI Listed® - for organic growing

Available Sizes:
1.0 CFC/28.5 L (100/pallet) (compressed bales)
2.2 CFC/62 L (50/pallet) (compressed bales)
3.8 CFC/107 L (30/pallet) (compressed bales)

Ingredients: Canadian Sphagnum peat moss
Sunshine Mix #4 products are professional, all-purpose growing mixes for all types of indoor or outdoor container crops. These specialty performance mixes are designed for controlled-environment crops that need increased drainage. They are ideal for growing plants in a wide variety of container sizes, from small cell packs to large pots and fabric containers. Sunshine Mix #4 mixes are also ideal for cutting propagation.

### Sunshine® Mix #4
- Ready to use mix formula
- Eco-compress bale – expands up to 4.5 feet
- Fast draining
- Indoor and outdoor growing
- Ideal for foliage, bedding plants, solariums & container gardens

**Available Sizes:**
- 3.0 CFC (35/pallet)

**Ingredients:** Canadian Sphagnum peat moss, perlite, dolomite lime

### Sunshine® Mix #4 Aggregate Plus
- High air capacity and fast drainage
- Ideal for water and salt sensitive crops or where frequent leaching is required
- Is a perfect make-your-own mix base
- Ready to Gro

**Available Sizes:**
- 3.8 CFC (30/pallet)

**Ingredients:** Canadian Sphagnum peat moss, perlite, dolomite lime

Environmental Responsibility

Sun Gro® Horticulture is the leader in sustainable peat resources. We endorse and support the Canadian Sphagnum Peat Moss Association’s definition of sustainable peatland management as the “balanced stewardship of the environmental, social and economic values of Canada’s renewable peatland resource”.
