

SUNSHINE® PEAT MOSS

KEEP YOUR TURF IN TOP FORM

ORGANIC AMENDMENT FOR THE GOLF COURSE AND SPORTS TURF INDUSTRY

North American golf course, sports field landscape and maintenance professionals choose Sunshine® Professional-Grade Green- Peat Moss, a fine grade Canadian Sphagnum peat moss. Sunshine® peat moss consistently performs well to construct and maintain only the best golf course greens.

Turf and sports field specialists rely on high quality peat moss to better maintain their grounds and fields.

Sunshine® peat moss is ideal for: sand-peat based root zone mix, new course construction, renovation projects, sports turf applications, top dressing mixes, fertilizer retention.

Other exceptional products:

- Landscape & bedding mixes
- Landscape bark mixes
- Special blends of peat moss
- Retail potting and specialty mixes
- Amendments and water-soluble fertilizers
