north american horticultural leadership

Sun Gro Horticulture is one of the most prominent North American horticultural companies, employing over 900 staff and serving customers worldwide.

Since its humble beginnings in 1929, it has become the leading supplier of soilless growing mixes to North America's leading greenhouse and nursery growers, shipping over 70,000 truckloads of product annually for professional and retail – consumer markets. The ingredients in our peat and bark-based

mixes are developed by professional horticulturists and produced under the industry's highest quality standards.

Sun Gro products are made to exacting standards and conform to high product quality and performance criteria. We offer extensive testing and analytical services for water, media and tissue analysis, as well as professional horticultural advice and resources for growers.

Developed by professional horticulturists and produced under the industry's highest quality standards, we offer over 100 professional and retail products.

sungro
HORTICULTURE 

the
growing
media company

Sun Gro Horticulture is recognized as a leading force in North America for both professional and consumer soilless growing mixes.

When professional growers demand consistent performance, a reliable supply and the latest innovations in growing media, they turn to Sun Gro. As The Growing Media Company, we deliver more than just peat moss—we deliver expertly manufactured blends tailored to today's horticulture.

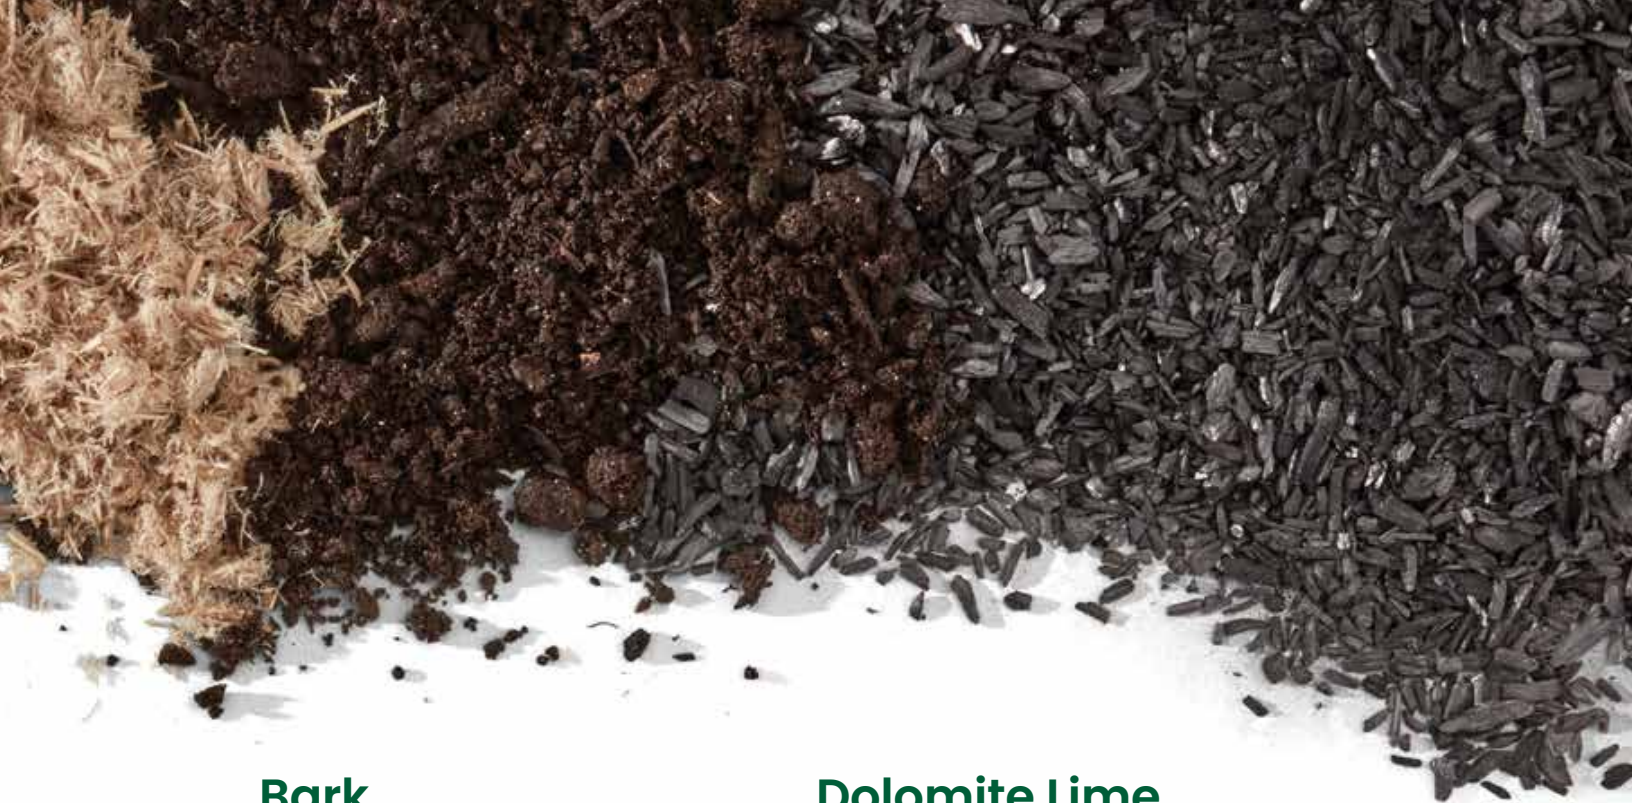

As part of this excellence, we are **committed to growing innovation and global ingredient diversity**, and are expanding into sourcing and providing a broader range of offerings. Our focus now extends beyond traditional mixes to encompass **specialized growing media** raw materials that are sourced both locally and globally. This expanded portfolio includes environmentally conscious options such as **Black Bear® biochar**, a climate conscious growing mix; **Pelemix®**, a coconut coir organic and eco-friendly cultivation option; local resources related to wood fiber; and **RESILIENCE®** – the silicon advantage.

This means Sun Gro Horticulture's commitment to sustainability goes beyond product innovation and extends to the entire supply chain. Our dedication to responsible sourcing practices ensures that the raw materials for our growing mixes meet stringent environmental and ethical standards. By actively engaging with local and global suppliers, we aim to create a positive impact on the communities and ecosystems where these resources are derived. This holistic approach not only aligns with our values but also reinforces our position as a socially responsible industry leader. We believe that by fostering sustainability at every stage, from sourcing to the end product, we contribute to a better planet while providing our customers with quality growing solutions they can trust.

from bog, to bag, **to You.**

Sun Gro® Horticulture is the leader in sustainable peat resources.

We endorse and support the Canadian Sphagnum Peat Moss Association's definition of sustainable peatland management as the "balanced stewardship of the environmental, social and economic values of Canada's renewable peatland resource."

“

Committed to environmental sustainability and sustaining Canadian sphagnum peatlands

”

Veriflora® Responsibly Managed Peatlands

The Canadian sphagnum peat moss in our products is extracted from bogs that are certified under the Veriflora® Responsibly Managed Peatlands program. This certification demonstrates our commitment to the application of good management principles in all aspects of sustainable development, including ecosystem protection, social engagement and product quality.

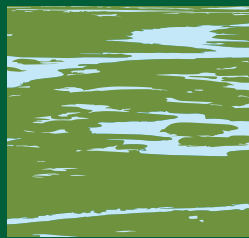

HOW BOGS WERE FORMED

Peat bogs were formed from melting glaciers. Plants grew and died, creating decomposed organic residue. Sphagnum peat moss holds nutrients in the soil.

INDUSTRY-LEADING HORTICULTURAL SCIENCE

Industry-leading science and R&D with Sun Gro's specialists.

THE SOURCE

Sun Gro sources peat moss in the 270 million acres of bogs in the northern wetlands of Canada. These bogs in Canada represent 25% of the world's total.

CUSTOMER CARE

- Solution Focused Team
- Innovative Order Entry & Delivery Management
- Superior Customer Care & Support

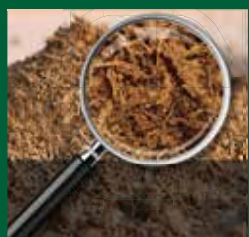

HOW WE HARVEST

The peatland is harrowed inches deep and vacuumed up. THERE ARE ONLY 40-50 SUITABLE HARVEST DAYS PER YEAR.

RESILIENCE® - the silicon advantage:

- May improve resistance to heavy metal toxicities
- May improve resistance to salt stress
- May improve resistance to wilting

QUALITY OF THE HARVEST

A typical harvest DELIVERS 75% PROFESSIONAL GRADE (closer to the surface) and 25% consumer retail peat moss.

TRUCKLOADS

Sun Gro trucks travel coast to coast and everywhere in between to deliver quality products.

THE RIGHT BOG

Bogs are chosen for harvest by their suitability for restoration. THEY CAN BE RETURNED TO NEAR-ORIGINAL STATE IN AS LITTLE AS 10-15 YEARS.

COMMERCIAL GROWING LEADER

The majority of North America's commercial growers rely on Sun Gro for high quality peat moss and peat-based growing media.

CONSUMER & PROFESSIONAL

Since 1929, Sun Gro has created the highest quality, most advanced mixes and peat products for consumers and professional growers.

EVERY GARDENING NEED

Our many brands cover every gardening need—from general gardening to container-specific planting to specialty plants and foods.

ACROSS NORTH AMERICA

Sun Gro operates OVER 20 PRODUCTION FACILITIES across North America, where peat is processed with and without other ingredients such as bark, compost, perlite and RESILIENCE®.

FOR EVERY GARDENER

The enthusiast gardener, the hobbyist and the weekend gardener will all find products to suit their plants, projects and lifestyle.

Count on Sun Gro's **Grower Specialists**

to provide expert
scientific technical
insights and solutions

We provide optimal analytical services to meet our customers' growing parameters, maximize higher yields and improve crop time supported by our best-fit greenhouse and nursery mixes.

This includes:

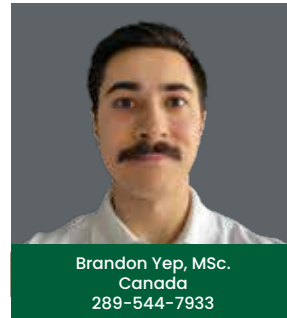

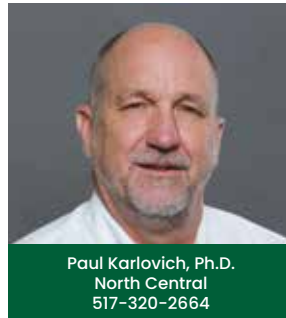

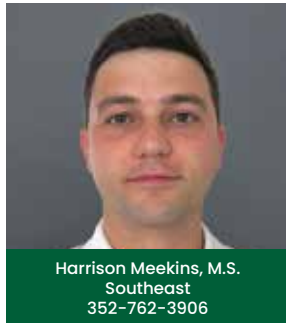

- Water Analysis
- Growing Media Analysis
- Plant Tissue Analysis
- Fertilizer Analysis

Our Grower Specialist team will help you:

- Choose the right products and formulations for your needs
- Answer technical questions
- Interpret test results
- Improve your growing operations

gro facts

Canadian Sphagnum Peat Moss

What is it? Sphagnum peat moss for growing media comes from the non-living, fibrous sphagnum moss that has partially decomposed in a bog. It's light, spongy and crumbles into small clumps.

What does it do? Peat moss has a remarkable ability to efficiently hold water and nutrients that may otherwise leach out of the soil. It's nature's best all-purpose soil conditioner, which is why Sun Gro adds it to all key professional and retail mixes.

Coir

What is it? Coir is a blend of short fiber and pith left after coconut fiber is extracted from coconut husks.

What does it do? Coir adds bulk and texture to potting mixes. The short fibers and sponge-like pith can provide aeration and water holding in mix.

Perlite

What is it? Perlite is derived from crushed volcanic rock, which is expanded (popped) in a furnace. Perlite particles are lightweight, roundish and white.

What does it do? Perlite is a natural additive for growing media used to aerate mixes.

Bark

What is it? Composted bark comes from the forest product industry. The bark is shredded or chipped and then composted to make it a higher value mix component.

What does it do? When added to growing mix, composted bark increases air capacity. Its unique particle size and shape allows air to circulate through the soil, improving oxygen availability to plant roots.

Biochar

What is it? 100% natural, renewable forest products, including sawmill and lumber remnants that are typically burned.

What does it do? Sustainable alternative aggregates to optimize aeration and drainage.

Wood Fiber

What is it? Proprietary, engineered wood fiber particles.

What does it do? Wood fiber mixes can improve drainage, aeration and water retention.

Earthworm Castings

What is it? Earthworm castings (vermicastings) are the organic waste products from earthworms. Earthworms consume organic matter and their castings are collected for soil enrichment.

What does it do? Castings from earthworms are nutrient rich, biologically active and used to enrich mixes and garden soils for improved plant performance.

Compost

What is it? Compost is decomposed organic material.

What does it do? Compost is added to mixes to provide natural, stabilized organic matter. It also has excellent water-holding ability.

RESILIENCE®

What is it? Silicon is an abundant element naturally found in the earth's crust where surface soils exist.

What does it do? RESILIENCE® - the silicon advantage may improve resistance to heavy metal toxicities, salt stress and resistance to wilting.

What's in the Mix

We all know the importance of using superior professional growing mixes to get the best results. It's critical in the plants you sell—and it's equally critical that you help your customers in selecting plants grown in superior mixes so they can grow vigorous gardens...and become repeat customers.

Sun Gro professional and retail products are made with premium ingredients and meet the highest quality standards.

The major role of a growing mix is to support plants while holding water, air and nutrients to promote vigorous growth. The following is a brief overview of each of the quality components Sun Gro may use in our mix formulations.

Peat Moss

Bark

Black Bear®
Biochar

Perlite

Polar Bear®
Wood Fiber

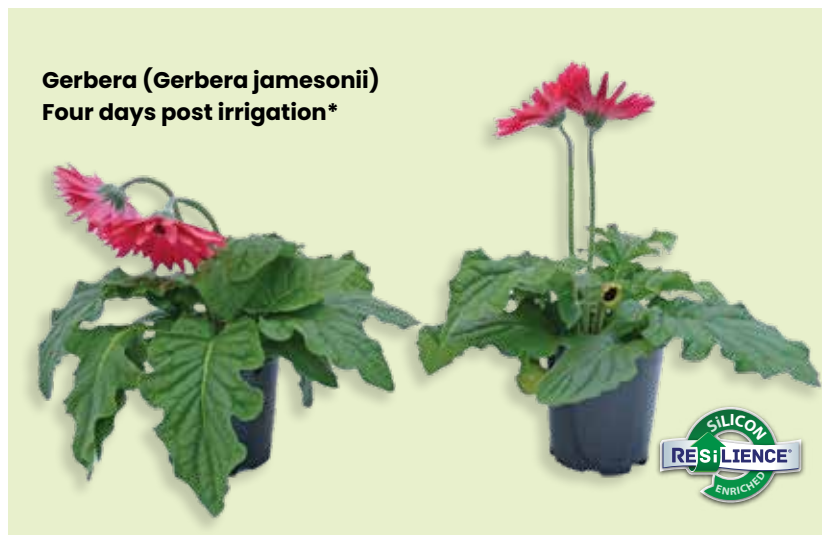

It's *already* in the mix™

RESiLIENCE® – the silicon advantage:

- May improve resistance to heavy metal toxicity
- May improve resistance to salt stress
- May improve resistance to wilting

*Results will vary by plant type and grower practices

Professional Products

More than 100 Professional Products

Developed by professional horticulturists and produced under the industry's highest quality standards, we offer over 100 professional products under the Sunshine®, Metro Mix®, Pelemix®, Black Bear® Biochar, Polar Bear® Wood Fiber and Technigro® brands.

These professional products consist of:

- Pure Canadian sphagnum peat moss screened to various grades (fine to coarse)
- Peat and perlite-based growing mixes formulated to exacting standards
- Peat and bark-based growing mixes formulated to exacting standards
- OMRI® listed organic mixes for organic growers
- Perlite and pumice aggregates
- Pelemix® coconut coir and all-natural compost aggregates
- Growing mixes with Black Bear® biochar aggregates
- Polar Bear® Wood Fiber growing mixes
- Water-soluble fertilizers for every water quality situation

Black Bear® Biochar Professional Mixes

Engineered to perform as an improved alternative aggregate to perlite, Black Bear® biochar enhances Sunshine® blends with functional esthetics that promote aeration, drainage and nutrient retention.

Discover the Black Bear® difference.

Sunshine® Black Bear® #1

SKU: 132212

An all-purpose lightweight growing mix, our most versatile peat-based formulation for expert growers. It is used for a wide variety of crops from cuttings to finished product.

Contains: Canadian sphagnum peat moss, wood biochar, dolomite lime, calcium silicate

Available sizes: SunTower 110 cu ft (1/pallet) 80 loosefill totes (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (51-54/pallet)

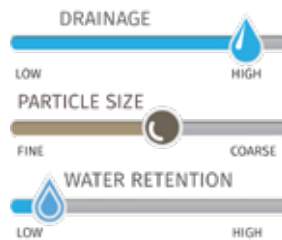

Sunshine® Black Bear® #4

SKU: 132204

Recommended where high air capacity and fast drainage are needed: during winter months, with water- and salt-sensitive crops or where frequent leaching is required.

Contains: Canadian sphagnum peat moss, wood biochar, calcium silicate, dolomite lime, wetting agent

Available sizes: SunTower 110 cu ft (1/pallet), 3.8 cu ft (30/pallet)

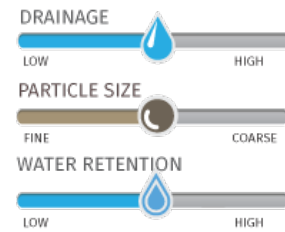

Sunshine® Black Bear® #15

SKU: 132215

Recommended for the production of a wide variety of flats, potted plants and hanging baskets. It is also suitable for rooting of cuttings.

Contains: Canadian sphagnum peat moss, wood biochar, calcium silicate, dolomite lime, wetting agent

Available sizes: SunTower 110 cu ft (1/pallet), 3.8 cu ft (30/pallet)

Customer Care **1 800 PEAT MOSS**

Pallet counts vary by site due to raw material variability. Please contact your local Sun Gro Customer Resource Center for specific pallet counts for your area. RESILIENCE® available in select regions.

Introducing Polar Bear® Wood Fiber Professional Mixes

Engineered with the dual functionality of aeration and moisture retention, Polar Bear® wood fiber mixes offer a cost-conscious solution without sacrificing performance or quality.

Made with peat, wood fiber, RESiLIENCE®, wetting agent and dolomite, these Polar Bear® mixes will incorporate seamlessly into your current growing system with high performance wettability for optimal settling and wet up.

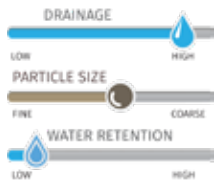

Sunshine® Polar Bear #4HP

SKU: 132340

Recommended where high air capacity and fast drainage are needed during winter months, with water and salt sensitive crops or where frequent leaching is required.

Contains: Canadian sphagnum peat moss, wood fiber, dolomite lime, calcium silicate, wetting agent

Available sizes: 110 cu ft tower compressed, 2.8 cu ft, 3.8 cu ft bale, 80 cu ft totes loose fill

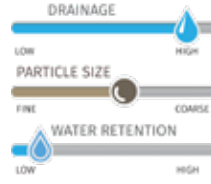

Sunshine® Polar Bear #4

SKU: 132208

Recommended where high air capacity and fast drainage are needed during winter months, with water and salt sensitive crops or where frequent leaching is required.

Contains: Canadian sphagnum peat moss, wood fiber, dolomite lime, calcium silicate, wetting agent

Available sizes: 110 cu ft tower compressed, 2.8 cu ft, 3.8 cu ft bale, 80 cu ft totes loose fill

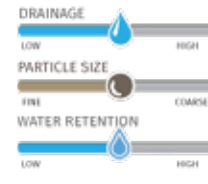

Sunshine® Polar Bear #1P

SKU: 132321

An all-purpose, lightweight growing mix, our most versatile peat-based formulation for a variety of crops, from cuttings to finished product.

Contains: Canadian sphagnum peat moss, wood fiber, perlite, dolomite lime, calcium silicate, wetting agent

Available sizes: 110 cu ft tower compressed, 2.8 cu ft, 3.8 cu ft bale, 80 cu ft totes loose fill

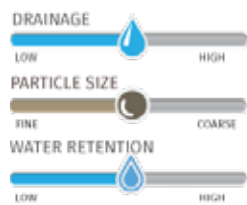

Sunshine® Polar Bear #1

SKU: 132320

An all-purpose lightweight growing mix, our most versatile peat-based formulation for expert growers. It is used for a wide variety of crops from cuttings to finished product.

Contains: Canadian sphagnum peat moss, wood fiber, dolomite lime, calcium silicate, wetting agent

Available sizes: 110 cu ft tower compressed, 2.8 cu ft, 3.8 cu ft bale, 80 cu ft totes loose fill

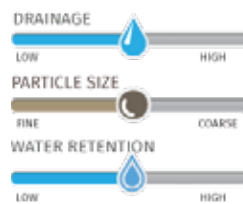

Sunshine® Polar Bear #15P

SKU: 13225

Recommended for the production of a wide variety of flats, potted plants and hanging baskets. It is also suitable for rooting of cuttings.

Contains: Canadian sphagnum peat moss, wood fiber, perlite, dolomite lime, calcium silicate, wetting agent

Available sizes: 110 cu ft tower compressed, 2.8 cu ft, 3.8 cu ft bale, 80 cu ft totes loose fill

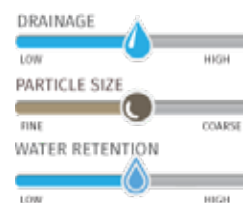

Sunshine® Polar Bear #15

SKU: 132221

Recommended for the production of a wide variety of flats, potted plants and hanging baskets. It is also suitable for rooting of cuttings.

Contains: Canadian sphagnum peat moss, wood fiber, dolomite lime, calcium silicate, wetting agent

Available sizes: 110 cu ft tower compressed, 2.8 cu ft, 3.8 cu ft bale, 80 cu ft totes loose fill

Propagation Mixes

Sun Gro® propagation mixes are designed for a wide variety of plant types, as well as a growing medium for cell packs and small propagule types. Available in standard and Natural & Organic.

It's *already* in the mix™

Designed to enhance root development in propagation of ornamental and vegetable transplants. Also available in natural and organic, OMRI Listed®, for organic growing.

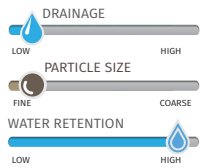

Sunshine® Mix #5

SKU: 1342

Sunshine® Mix #5 is designed to enhance root development in the propagation of ornamental and vegetable transplants. Ready to Gro.

Contains: Fine Canadian sphagnum peat moss, perlite, dolomite lime, wetting agent, calcium silicate

Available sizes: SunTower 110 cu ft (1/pallet), loosefill totes (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (51-54/pallet)

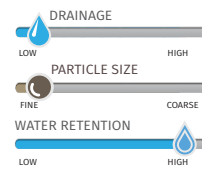

Sunshine® Mix #5 Natural & Organic

SKU: 508265

Sunshine® Mix #5 Natural & Organic is an OMRI Listed® blend designed to enhance root development in ornamental and vegetable transplant plugs. Ready to Gro.

Contains: Fine Canadian sphagnum peat moss, perlite, dolomite lime, organic wetting agent, calcium silicate

Available sizes: SunTower 110 cu ft (1/pallet), 80 cu ft loosefill totes (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (51-54/pallet)

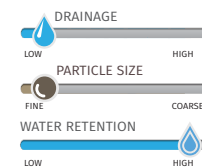

Sun Gro® Perlite-Free Plug Mix RESILIENCE®

SKU: 1353

Professional propagation mix designed for growers who require a perlite-free plug and propagation mix.

Contains: Canadian sphagnum peat moss, dolomite lime, wetting agent, calcium silicate

Available sizes: SunTower 110 cu ft (1/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (54/pallet)

Peat-Perlite Mixes

Sunshine® products are produced under the industry's highest quality standards and designed to meet the unique needs of your crops while fitting into the flow of your operations. We offer these in either compressed or loosefill packaging in a variety of sizes, from the easy-to-handle 3.8 cubic foot bale to the economy-sized Big Shot or SunTower.

It's *already* in the mix™

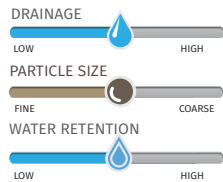

Sunshine® Mix #1

SKU: 5101

An all-purpose lightweight growing mix, our most versatile peat-based formulation for expert growers. It is used for a wide variety of crops from cuttings to finished product.

Contains: Canadian sphagnum peat moss, perlite, dolomite lime, wetting agent, calcium silicate

Available sizes: SunTower 110 cu ft (1/pallet), 80 loosefill totes (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (51-54/pallet)

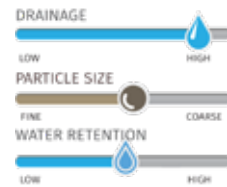

Sunshine® Mix #4

SKU: 1341

Recommended where high air capacity and fast drainage are needed during winter months, with water and salt sensitive crops, or where frequent leaching is required.

Contains: Canadian sphagnum peat moss, perlite, dolomite lime, wetting agent, calcium silicate

Available sizes: SunTower 110 cu ft (1/pallet), 80 loosefill totes (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (51-54/pallet)

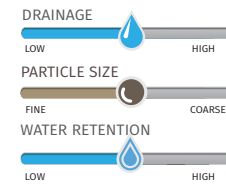

Sunshine® Mix #15

SKU: 5104

Recommended for the production of a wide variety of flats, potted plants and hanging baskets. It is also suitable for rooting of cuttings.

Contains: Canadian sphagnum peat moss, perlite, dolomite lime, wetting agent, calcium silicate

Available sizes: SunTower 110 cu ft (1/pallet), 80 loosefill totes (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (51-54/pallet)

SunTower®

SunTower brings a whole new dimension to compressed growing media. It's a 110-cu-ft compressed bale that combines convenience and economic savings, transports easily and can be stored outdoors.

- Reduces packaging waste
- Improves your efficiency
- Saves time in unloading
- 22-24 SunTowers per load
- Equivalent to more than 28 3.8 cu ft bales
- Now available everywhere!

Big Shot®

Our 55-cu-ft compressed Big Shot bale lends itself to the most efficient mechanized handling available. This means less handling and lower packaging disposal costs. Big Shot is available in a "cube" format or with a lifting panel.*†

Sunshine® Sun Coir 1

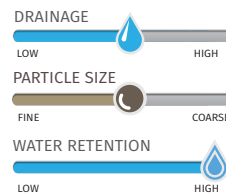

Only available in western states

SKU: 5602601

This blended mix is formulated for good drainage and excellent water holding capacity. It is an excellent mix for cannabis and hemp crops.

Contains: Canadian sphagnum peat moss, perlite, coir, dolomite lime, wetting agent, calcium silicate

Available sizes: SunTower 110 cu ft (1/pallet), 80 loosefill totes (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (51-54/pallet)

Perlite-Free Professional Mixes

Sun Gro® Professional Perlite-Free Growing Mixes were designed for growers who require a perlite-free mix. These blended mixes contain grower-grade Canadian sphagnum peat moss. This combination of particle size provides optimum aeration, moisture retention and porosity for plant roots.

It's *already* in the mix™

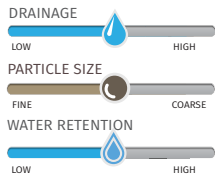

Sun Gro® Natural Peatland Fibre RESiLIENCE®

SKU: 5702

This blended mix contains grower-grade Canadian sphagnum peat moss and natural peatland fibre with similar performance and characteristics to Sunshine® Mix #1

Contains: Canadian sphagnum peat moss, natural peatland fibre, calcium silicate

Available sizes: SunTower 110 cu ft (1/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (54/pallet)

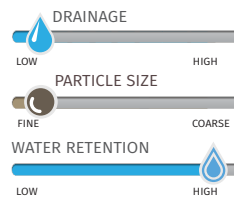

Sun Gro® Perlite-Free Plug Mix RESiLIENCE®

SKU: 1353

Professional propagation mix designed for growers who require a perlite-free plug and propagation mix.

Contains: Canadian sphagnum peat moss, dolomite lime, wetting agent, calcium silicate

Available sizes: SunTower 110 cu ft (1/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (54/pallet)

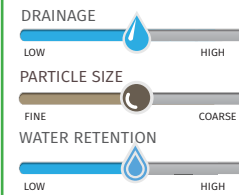

Sun Gro® Perlite-Free Mix RESiLIENCE®

SKU: 1251

This blended mix contains grower-grade Canadian sphagnum peat moss with similar performance and characteristics to Euro Style Mixes.

Contains: Canadian sphagnum peat moss, dolomite lime, wetting agent, calcium silicate

Available sizes: SunTower 110 cu ft (1/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (54/pallet)

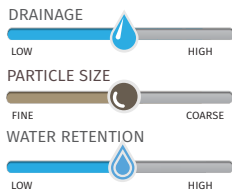

Sun Gro® Perlite-Free Natural & Organic RESiLIENCE®

SKU: 703277

This blended mix contains grower-grade Canadian sphagnum peat moss with similar performance and characteristics to Euro Style Mixes.

Contains: Canadian sphagnum peat moss, dolomite lime, wetting agent, calcium silicate

Available sizes: SunTower 110 cu ft (1/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (54/pallet)

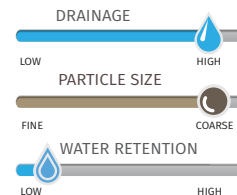

Sun Gro® Perlite-Free X-Coarse RESiLIENCE®

SKU: 796419

This blended mix contains grower-grade Canadian sphagnum peat moss with similar performance and characteristics to Euro Style Mixes.

Contains: Canadian sphagnum peat moss (coarse grade), dolomite lime, wetting agent, calcium silicate

Available sizes: SunTower 110 cu ft (1/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (54/pallet)

Bark Mixes

Our Metro-Mix® bark mixes offer a broad range of applications ranging from small cell packs to large containers. All formulas are pH adjusted and contain our long-lasting wetting agent.

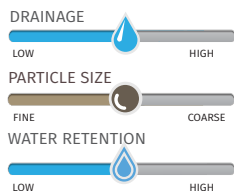

Metro-Mix® 830

SKU: 5102

This versatile formula is our most popular bark-based mix for expert growers. It is a fit for a wide range of crops grown in many container sizes from cell flats to larger pots and hanging baskets.

Contains: Canadian sphagnum peat moss, bark, perlite, dolomite lime, wetting agent, calcium silicate

Available sizes: 60 cu ft loosefill (2/pallet), 2.8 cu ft loosefill (48 pallet)

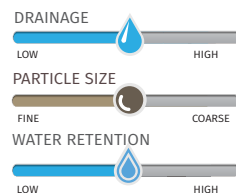

Metro-Mix® 820

SKU: 0552261

A medium-textured, well-drained growing mix for hanging baskets and potted crops.

Contains: Canadian sphagnum peat moss, bark, perlite, dolomite lime, wetting agent, calcium silicate

Available sizes: 60 cu ft loosefill (2/pallet), 2.8 cu ft loosefill (48 pallet), Bulk

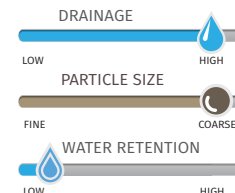

Metro-Mix® 840

SKU: 0555267

A medium textured, well-drained, enhanced air capacity general purpose mix. It is well suited for growing crops in containers ranging from cell packs to hanging baskets.

Contains: Canadian sphagnum peat moss, bark, perlite, dolomite lime, wetting agent, calcium silicate

Available sizes: 60 cu ft loosefill (2/pallet), 2.8 cu ft loosefill (45 pallet), Bulk

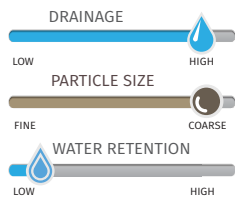

Metro-Mix® 852

SKU: 5103

Formulated with a higher bark percentage for outdoor containers and large interior pots, making it an excellent choice in perennial, rose and nursery production. It is an excellent mix for long-term crops. Suitable for rooftop gardens.

Contains: Bark, Canadian sphagnum peat moss, perlite, dolomite lime, wetting agent, calcium silicate

Available sizes: 60 cu ft bulk bag (2/pallet), 2.8 cu ft bags (42/pallet)

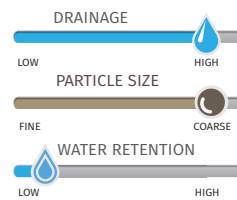

Metro-Mix® 865

SKU: 552611

A heavyweight mix for perennial, nursery production and outdoor containers. Contains a high bark content for superior drainage and excellent container stability. Suitable for rooftop gardens.

Contains: Bark, Canadian sphagnum peat moss, perlite, dolomite lime, wetting agent, calcium silicate

Available sizes: 60 cu ft loosefill (2/pallet), 2.8 cu ft loosefill (40 pallet), Bulk

Metro-Mix® 380 SC Coir

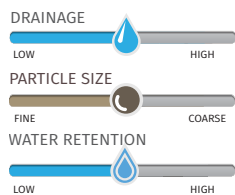

Only available in western states

SKU: 2390269

Formulated with a higher bark percentage for outdoor containers and large interior pots, making it an excellent choice in perennial, rose and nursery production. It is an excellent mix for long-term crops. Suitable for rooftop gardens.

Contains: Bark fines, Canadian sphagnum peat moss, coir, perlite, fertilizer, lime, wetting agent, calcium silicate

Available sizes: 60 cu ft bulk bag (2/pallet), 2.8 cu ft bags (42/pallet)

Metro-Mix® 838

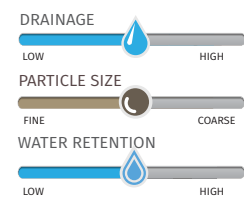

Only available in western states

SKU: 1217

A professional cultivation mix formulated for good drainage and porosity. It is a versatile mix for a wide range of crops in most container sizes.

Contains: Bark fines, Canadian sphagnum peat moss, perlite, dolomite lime, wetting agent, calcium silicate

Available sizes: 60 cu ft loosefill, Bulk

Metro-Mix® 840-PC

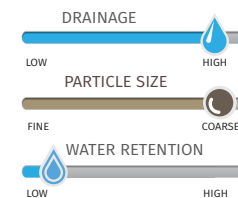

Only available in western states

SKU: 2352611

A professional cultivation mix formulated for good drainage and porosity. It is a versatile mix for a wide range of crops in most container sizes.

Contains: Bark fines, Canadian sphagnum peat moss, pumice, dolomite lime, wetting agent, calcium silicate

Available sizes: 60 cu ft loosefill (2/pallet), 2.8 cu ft loosefill (45 pallet), Bulk

Natural & Organic Mixes

Sun Gro® Natural & Organic professional mixes are OMRI Listed®, contain RESILIENCE® and are developed for a wide variety of crops. Our blends offer everything from high air capacity and fast drainage to appropriate balances of Canadian sphagnum peat moss and horticultural grade perlite to shorter fiber peat for propagation mixes.

It's *already* in the mix™

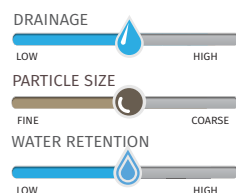

Sunshine® Mix #1 Natural & Organic with Earthworm Castings

SKU: 508033

Recommended where high air capacity and fast drainage are needed: during winter months, with water- and salt-sensitive crops or where frequent leaching is required.

Contains: Canadian sphagnum peat moss, coarse perlite, earthworm castings, gypsum, dolomite lime, organic wetting agent, calcium silicate

Available sizes: 110 cu ft (1/pallet) or 80 cu ft loosefill (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (51-54-/pallet)

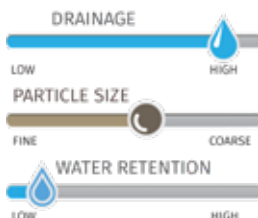

Sunshine® Mix #4 Natural & Organic

SKU: 508264

Recommended where high air capacity and fast drainage are needed: during winter months, with water- and salt-sensitive crops or where frequent leaching is required.

Contains: Canadian sphagnum peat moss, coarse perlite, dolomite lime, organic wetting agent, calcium silicate

Available sizes: 110 cu ft (1/pallet) or 80 cu ft loosefill (2/pallet), Big Shot 55 cu ft (2/pallet), 2.8 cu ft loosefill (51-54-/pallet)

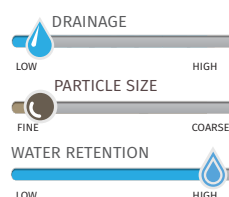

Sunshine® Mix #5 Natural & Organic

SKU: 508265

Designed to enhance root development in ornamental and vegetable transplant plugs

Contains: Fine Canadian sphagnum peat moss, fine perlite, dolomite lime, organic wetting agent, calcium silicate

Available sizes: 110 cu ft (1/pallet) or 80 cu ft loosefill (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (51-54-/pallet)

Cultivation Mixes

Sunshine® Mix #1 and #4 are our most versatile formulations that expert growers choose for the production of a wide variety of crops including cell packs, large patio pots and fabric containers. Both are excellent for propagating cuttings in indoor and outdoor growing situations and where increased drainage is a priority. Use Technigro® water-soluble fertilizer as a continuous liquid-feed program.

See pages 38–39 for Technigro® products.

It's *already* in the mix™

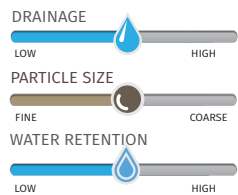

Sunshine® Mix #1

SKU: 5101

An all-purpose, lightweight, versatile mix-perfect for cuttings and container production.

Contains: Canadian sphagnum peat moss, perlite, dolomite lime, wetting agent, calcium silicate

Available sizes: SunTower 110 cu ft (1/pallet), 80 cu ft loosefill totes (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (51-54/pallet)

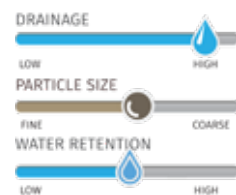

Sunshine® Mix #4

SKU: 1341

Recommended where high air capacity and fast drainage are needed.

Contains: Canadian sphagnum peat moss, perlite, dolomite lime, wetting agent, calcium silicate

Available sizes: SunTower 110 cu ft (1/pallet), 80 cu ft loosefill totes (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (51-54/pallet)

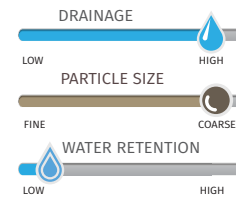

Sunshine® Mix #4 Natural & Organic

SKU: 508264

Ideal for organic growing: OMRI Listed®

Contains: Canadian sphagnum peat moss, perlite, dolomite lime, organic wetting agent, calcium silicate

Available sizes: SunTower 110 cu ft (1/pallet), 80 cu ft loosefill totes (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (51-54/pallet)

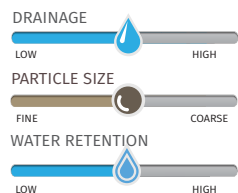

Sunshine® Mix #1 Natural & Organic with Earthworm Castings

SKU: 508033

Ideal for organic growing: OMRI Listed®

Contains: Canadian sphagnum peat moss, perlite, earthworm castings, dolomite lime, organic wetting agent, calcium silicate

Available sizes: SunTower 110 cu ft (1/pallet), 80 cu ft loosefill totes (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (51-54/pallet)

Sunshine® Mix #4 PC

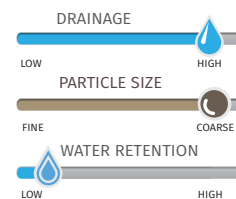

Only available in western states

SKU: 1406

Recommended where high air capacity and fast drainage are needed.

Contains: Canadian sphagnum peat moss, pumice, dolomite lime, wetting agent, calcium silicate

Available sizes: SunTower 110 cu ft (1/pallet), 80 cu ft loosefill totes (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (51-54/pallet)

HORTICULTURE
THE GROWING MEDIA COMPANY™

 **Pelemix**®
Professionals In Coir & Substrates

Cultivation Mixes

We take pride in providing sustainable growing media.
Coco coir is produced by extracting fiber from the outer
husk of coconuts and is a 100% renewable resource.

Grow Blocks

- For growers who want to make their own mix
- Compressed to 30 x 30 x 10 cm in size
- After hydration, each block may yield up to 65–70 liters of loose coir
- Calcium nitrate buffered (Not OMRI Listed)

Item Number	Coir	Wash	Electrical Conductivity	Calcium Nitrate Buffered	Weight
Available in Plastic & Bio D Cloth	100% Chips	Natural Washed	<3.0 mS/cm	No	5kg (11.02 lb)
Available in Plastic & Bio D Cloth	16 mm	Extra Washed	<0.6 mS/cm	No	5 kg (11.02 lb)
Available in Plastic & Bio D Cloth	4 mm	Treated	<0.6 mS/cm	No	5 kg (11.02 lb)
Available in Plastic & Bio D Cloth	70% 16 mm & 30% Chips	Extra Washed	<0.6 mS/cm	No	5 kg (11.02 lb)

MJOT Open Tops

- Specifically formulated for cannabis production
- Formulated 70% 16 mm premium long fiber with coir & 30% 10 mm chips
- Electrical conductivity (EC), 0.6 mS/cm

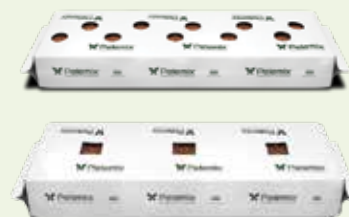

Item Number	Product	Bag Type	Dimension	Weight	Volume	Trade Size
Available in Plastic & Bio D Cloth	MJOT 40	1 yr UV+Bottom Filter Degradable	18 x 15 x 15 cm (7 x 6 x 6 in.)	0.48 kg (1.06 lb)	4.0 L (0.14 CU)	1 Gal.
Available in Plastic & Bio D Cloth	MJOT 65	1 yr UV+Bottom Filter Degradable	10 x 10 x 20 cm (7 x 7 x 8 in.)	0.78 kg (1.72 lb)	6.5 L (0.23 CU)	2 Gal.
Available in Plastic & Bio D Cloth	MJOT 90	1 yr UV+Bottom Filter Degradable	25 x 20 x 18 cm (10 x 8 x 7 in.)	1.12 kg (2.47 lb)	9.0 L (0.32 CU)	3 Gal.

Grow Bags

Custom ordered to spec:

- Sized to your needs
- Planting and drainage holes
- Available in 16mm – 70/30 or 80/20 blend of chips and premium long fiber

Canadian Sphagnum Peat Moss

Our select line of Canadian sphagnum peat moss is 100% organic, OMRI Listed® and Veriflora® Certified. The high water-holding capacity and excellent aeration make our peat moss the choice for growers who mix their own or other professional uses.

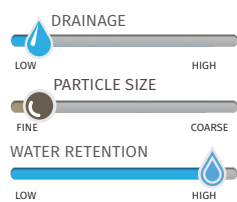

Grower Grade Green

SKU: 401

A screened, high quality, professional peat. It has short fibers with few or no sticks, which produces a fine texture with good water retention. This peat is excellent for seedling or plug production. Also, it is often used in golf course construction.

Contains: Canadian sphagnum peat moss

Available sizes: SunTower 110 cu ft (1/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft bale (30/pallet)

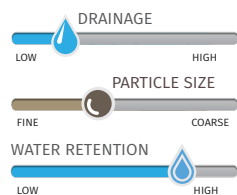

Grower Grade Orange

SKU: 402

A screened, high-quality, professional peat with a medium texture, few sticks and a rich brown color. It holds water and nutrients well, making them available for later plant uptake. Excellent for cutting propagation and large plug production, as well as vegetable, flowering plant and mushroom production.

Contains: Canadian sphagnum peat moss

Available sizes: SunTower 110 cu ft (1/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft bale (30/pallet)

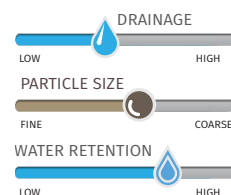

Grower Grade White

SKU: 403

A high-quality, fibrous peat with a coarse texture and light color. It has a perfect balance of drainage, water retention and air space, which makes it excellent for vegetable, flowering plant and nursery production in large pots and hanging baskets.

Contains: Canadian sphagnum peat moss

Available sizes: SunTower 110 cu ft (1/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft bale (30/pallet)

Customer Care 1800 PEAT MOSS

Technigro® Water Soluble Fertilizer

Technigro® Water-Soluble Fertilizer is the most soluble fertilizer on the market with added sulfur and magnesium in many formulas for greener, healthier growth. Packaged in a thick plastic bag for extra protection against hardening and ease of handling.

Technigro® – Perhaps the most soluble fertilizer on the planet!

Technigro® is an effective, high-quality, water-soluble fertilizer that dissolves quickly regardless of water quality, irrigation equipment or injector. Technigro® fertilizers stay in the solution and never leave residue at the bottom of the tank. With Technigro®, growers spend less time dealing with solubility problems while effectively fertilizing their crops.

- **Technigro® 20-9-20 Plus** – Our best formula for a wide range of crops and conditions. This high-nitrate formula is an excellent source to supply readily available sulfur, resulting in improved plant vigor and deeper green leaves. Its acidifying effect is useful where irrigation waters have moderate alkalinity.
- **Technigro® 13-2-13 Plus Contains 6% Calcium & 3% Magnesium** – Great for plugs and bedding plants using relatively pure irrigation water or where excess alkalinity is controlled. Contains phosphorous, calcium and magnesium; no need to alternate feed programs.
- **Technigro® 6-30-30 Plus** – Recommended when you want high phosphorous and potassium, with low nitrogen levels. The 1:5:5 ratio may enhance flowering in some species by helping maintain an appropriate N:P ratio while contributing to enhanced root growth. The additional potassium helps enhance plant vigor.
- **Technigro® 15-5-15 Plus Contains 5% Calcium & 2% Magnesium** – An all-purpose formulation useful in a wide range of crops and conditions. It produces a low to moderate basic reaction to help prevent pH from rising too high in growing mix. This high-nitrate formula is an excellent source to supply readily available nitrogen.

All Technigro® "Plus" formulations are recommended for use in peat-lite growing media that do not contain appreciable amounts of micronutrients.

Helping Americans Create Beautiful and Vigorous Gardens

Sun Gro offers several IGC-oriented brands, which are held to the high industry standards of its professional lines. These include well-known industry names like **Black Gold**®, **Grower's Gold**®, **Fafard**®, **Sunshine**® **Mix #4** and **Sunshine**®.

Each brand has a distinct set of characteristics that sets it apart from the rest; among them you will find a wide array of potting, specialty mixes and garden amendments.

Many are OMRI Listed® products approved for organic gardening. Sun Gro's Canadian production facilities are Veriflora® Certified for sustainability, and as a founding member of the Canadian Sphagnum Peat Moss Association, Sun Gro practices sustainable peatland management.

BLACK GOLD

Potting Mixes & Soil Amendments

Our best-selling brand just gets stronger.

Black Gold® potting mix and amendment quality is assured with its professional-grade ingredients. These products are positioned as high end—the best in the classification of good, better and best.

And now, most Black Gold products are OMRI Listed® and Natural & Organic* in support of edible gardening and lifestyle preferences.

Many Black Gold products contain nutrient-rich and biologically active earthworm castings. All Black Gold

potting mixes contain RESilIENCE® - the silicon advantage that may improve your plants' resistance to wilting.

Black Gold leads the industry with one of the strongest, most integrated consumer social media and support programs.

* Exception: Black Gold® All Purpose and Black Gold® Moisture Supreme Container Mix.

Black Gold® Potting Mixes

Black Gold® Natural & Organic Raised Bed & Potting Mix

- Natural and organic, OMRI Listed®
- Ready-to-use for vegetables, herbs and flowers in outdoor raised beds or large pots and containers
- Professional-quality ingredients
- Contains organic fertilizer and RESiLIENCE®
- Provides superior moisture retention with excellent drainage

Available Sizes: 1.5 cu ft (50/pallet)

Contains: Bark, compost, Canadian sphagnum peat moss, earthworm castings, organic fertilizer, calcium silicate

Black Gold® Natural & Organic Ultra Coir

- Natural and organic, OMRI Listed®
- Modeled after our professional coir-based mixes
- Specifically formulated with organic fertilizer and natural ingredients, making it ideal for vegetables, herbs and other consumable crops
- Recommended for indoor and outdoor container plants requiring extra water
- Contains RESiLIENCE®

Available Sizes: 2.0 cu ft (40/pallet)

Contains: Coir, Canadian sphagnum peat moss, perlite, organic fertilizer, mycorrhizae, organic wetting agent, calcium silicate

BLACK GOLD®

Black Gold® Amendments

Black Gold® Natural & Organic Flower & Vegetable Soil

- Natural and organic, OMRI Listed®
- Specially formulated to provide organic matter to grow flowers and vegetables
- Blended for flowers, vegetables, fruits and herbs

Available Sizes: 1.5 cu ft (50/pallet)

Contains: Bark, compost, Canadian sphagnum peat moss

Black Gold® Natural & Organic Ultra Outdoor Planting Mix

- Natural and organic, OMRI Listed®
- High in organic matter to improve soil structure
- Formulated for garden and landscape planting
- Great for amending poor soil

Available Sizes: 1.5 cu ft (50/pallet)

Contains: Bark, compost, Canadian sphagnum peat moss

Black Gold® Potting Mixes

Black Gold® All Purpose Potting Mix

- Nutrient-rich blend great for indoor and outdoor container plantings
- Provides superior moisture retention and drainage
- Specially formulated with a controlled release fertilizer
- Feeds plants up to 6 months
- Certified as a Premium Potting Mix by the Mulch and Soil Council®
- Contains RESILIENCE®
- Contains earthworm castings

Available Sizes:

8 qt (240/pallet), 16 qt (120/pallet), 1.0 cu ft (70/pallet), 1.5 cu ft (50/pallet), 2.0 cu ft (40/pallet)

Contains: Canadian sphagnum peat moss, bark, compost, perlite or pumice or cinders, earthworm castings, fertilizer, calcium silicate

Black Gold® Moisture Supreme Container Mix

- Formulated for all your patio containers, hanging baskets and window boxes
- Includes coir for outstanding water management
- Feeds plants up to 6 months
- Contains RESILIENCE®
- Contains earthworm castings

Available Sizes:

8 qt (240/pallet), 1.0 cu ft (70/pallet), 1.5 cu ft (50/pallet), 2.0 cu ft (40/pallet)

Contains: Canadian sphagnum peat moss, bark, compost, coir, perlite or pumice or cinders, earthworm castings, controlled release fertilizer, wetting agent, calcium silicate

Black Gold® Natural & Organic Potting Mix

- An all-purpose mix recommended for containers and raised beds
- Ensures good aeration
- Certified as a Premium Potting Mix by the Mulch and Soil Council®
- Contains RESILIENCE®
- OMRI Listed®
- Contains earthworm castings

Available Sizes:

8 qt (240/pallet), 16 qt (120/pallet), 1.0 cu ft (70/pallet), 1.5 cu ft (50/pallet), 2.0 cu ft (40/pallet)

Contains: Canadian sphagnum peat moss, bark, compost, perlite or pumice or cinders, earthworm castings, organic fertilizer, calcium silicate

Black Gold® Amendments

Black Gold® Natural & Organic Seedling Mix

- Highly refined organic seedling mix is an excellent growing medium for seed germination
- Fine yet porous and water retentive including an organic wetting agent promoting root growth
- Contains RESILIENCE®
- OMRI Listed®

Available Sizes:
8 qt (240/pallet), 16 qt (120/pallet), 1.5 cu ft (50/pallet)

Contains: Canadian sphagnum peat moss, perlite, organic wetting agent, calcium silicate

Black Gold® Natural & Organic Cocoblend Potting Mix

- Peat and coir provide excellent moisture retention
- Certified as a Premium Potting Mix by the Mulch and Soil Council®
- Contains RESILIENCE®
- OMRI Listed®
- Earthworm castings and organic fertilizer added for optimal growth
- Perlite ensures good aeration

Available Sizes:
2.0 cu ft (40 pallet)

Contains: Canadian sphagnum peat moss, coir, perlite or pumice or cinders, earthworm castings, organic wetting agent, calcium silicate

Black Gold® Natural & Organic Just Coir

- All natural
- High water-holding capacity
- Highest quality coir reconstituted into a user-friendly, ready-to-use growing amendment
- OMRI Listed®

Available Sizes:
2.0 cu ft (40/pallet)

Contains: Coir

Specialty Mixes and Amendments

Black Gold® Natural & Organic Earthworm Castings Blend

- This enriching soil amendment is great for use as a top-dressing or soil conditioner
- Provides a rich, natural fertilizer
- Nutrient rich and biologically active to help retain moisture
- OMRI Listed*

Available Sizes:
8 qt (240/pallet)

Contains: Earthworm castings, Canadian sphagnum peat moss

Black Gold® Natural & Organic Garden Compost Blend

- All natural
- Gardeners use this blend as a raised bed amendment and garden mulch
- Perfect for enriching an existing bed, creating new flower or vegetable gardens
- This compost blend can improve native soil to establish a lawn area
- Improves soil moisture retention, aeration and drainage
- OMRI Listed*

Available Sizes:
1.0 cu ft (70/pallet)

Contains: Compost, bark, Canadian sphagnum peat moss

Specialty Mixes and Amendments

Black Gold® Natural & Organic Garden Soil

- Regionally formulated by professional horticulturists to best suit your local garden soils
- Improves soil structure by adding organic matter

Available Sizes:
1.0 cu ft (70/pallet)

Contains: Bark, compost, Canadian sphagnum peat moss

Black Gold® Natural & Organic Orchid Potting Mix

- Premium, high-performing mix ideal for growing epiphytic orchids, such as Phalaenopsis, Dendrobium and Cattleya orchids, among others
- Provides the quick drainage and plentiful air pockets that orchid roots require for good growth
- Helps anchor plants in pots without compacting roots
- All natural

Available Sizes:
8 qt (240/pallet)

Contains: Bark, perlite, organic wetting agent, may contain pumice and/or cinders

Specialty Mixes and Amendments

Black Gold® Perlite

- All natural
- Perlite is a lightweight, expanded volcanic rock
- Improves drainage and aeration of any growing mix
- Its high porosity makes it suitable for rooting cuttings
- OMRI Listed®

Available Sizes:
8 qt (240/pallet)

Contains: Perlite

Black Gold® Natural & Organic Canadian Sphagnum Peat Moss Plus

- 100% Canadian sphagnum peat moss
- Added organic wetting agent
- Suited to acid-loving plants
- May slightly lower the pH of more alkaline soils
- Great as a soil amendment or make-your-own mix base
- OMRI Listed®

Available Sizes:
8 qt (240/pallet)

Contains: Canadian sphagnum peat moss, organic wetting agent

Specialty Mixes and Amendments

Black Gold® Natural & Organic African Violet Potting Mix

- Picky African violets thrive in this blend, which maintains a good balance between porosity and organic matter for blooming plants with beautiful foliage
- It is also suited to Gloxinia, Sinningia, Streptocarpus and sensitive container plants
- Contains RESILIENCE®

Available Sizes:
8 qt (240/pallet)

Contains: Canadian sphagnum peat moss, perlite and one or more of the following: pumice, cinders, compost, processed softwood bark, hulls, earthworm casting, calcium silicate

Black Gold® Natural & Organic Succulent & Cactus Potting Mix

- An ideal rapid-draining growing mix for succulent plants
- Balanced blend of bark, compost, earthworm castings and may contain perlite or pumice or cinders
- Encourages growth while ensuring ample aeration and drainage that most cacti, bromeliads and succulents require to thrive
- For planting indoor or outdoor succulent containers, or amending rock gardens
- Contains RESILIENCE®

Available Sizes:
8 qt (240/pallet), 1.0 cu ft (63/pallet)

Contains: Perlite, pumice, cinders, bark, Canadian sphagnum peat moss, earthworm casting, calcium silicate

Black Gold® Natural & Organic Canadian Sphagnum Peat Moss

- 100% Canadian sphagnum peat moss
- Suited to acid-loving plants
- May slightly lower the pH of more alkaline soils
- Improves soil water retention and aeration in garden soil
- OMRI Listed®

Available Sizes:
2.2 cu ft (50/pallet)
3.0 cu ft (35/pallet)

Contains:
Canadian sphagnum peat moss

The Professional Grower's Choice.

This product contains the same quality ingredients used in our **Sunshine® #4 Mixes** and is suitable for both indoor and outdoor growing.

growersgold.net

Grower's Gold® Potting Mix

- An all-purpose potting mix for all types of containers including gallon containers and fabric containers
- Suitable for both indoor and outdoor growing
- RESILIENCE® - the silicon advantage: May improve resistance to heavy metal toxicity, improve resistance to salt stress, and improve resistance to wilting.
- A great value for growers:
 - Coco coir provides superior moisture retention
 - 2 cu ft size fills two 7-gallon fabric containers or three 5-gallon plastic pots

Available Sizes:

2.0 cu ft (48/pallet)
60 cu ft tote size (2/pallet)

Contains: Regionally formulated and contains a blend of processed softwood bark, Canadian sphagnum peat moss, perlite, compost, coir, dolomite lime, calcium silicate

growersgold.net

Grower's Gold Natural & Organic Pacific Blend

- A premium potting mix enriched with organic fertilizer derived from both the earth and ocean
- Natural and organic formulation includes a proprietary marine blend designed to provide balanced nutrition and performance for a wide variety of container grown plants
- Suitable for indoor and outdoor container gardening
- RESILIENCE® - the silicon advantage: May improve resistance to heavy metal toxicity, improve resistance to salt stress, and improve resistance to wilting.

Available Sizes:

1.5 cu ft (50/pallet)

Contains: Blend of processed softwood bark, sphagnum peat moss, perlite, fertilizer, dolomite, wetting agent, calcium silicate

SUNSHINE® MIX #4

cultivationmixes.com

Sunshine® Mix #4 with Mycorrhizae

- For indoor growing
- Contains horticultural-grade perlite for greater porosity
- Contains RESILIENCE®

Available Sizes:
3.0 cu ft compressed bales (expands up to 6 cu ft) (35/pallet), 2 cu ft (40/pallet)

Contains: Canadian sphagnum peat moss, perlite, dolomite lime, mycorrhizae, calcium silicate

Sunshine® Mix #4 Professional Growing Mix

- High air capacity and fast drainage
- Ideal for water- and salt-sensitive crops or where frequent leaching is required
- Inert mix is a perfect make-your-own mix base
- Ready to Gro
- Contains RESILIENCE®

Available Sizes:
3.8 cu ft (30/pallet), 2.8 cu ft (51-54/pallet)

Contains: Canadian sphagnum peat moss, coarse perlite, dolomite lime, wetting agent, calcium silicate

Sunshine® Advanced Mix #4

- Recommended for indoor growing
- Retains moisture and improves root aeration and drainage
- Contains RESILIENCE®
- OMRI Listed® - for organic gardening

Available Sizes:
3.0 cu ft (35/pallet) (expands up to 6 cu ft), 80 cu ft Tote size

Contains: Canadian sphagnum peat moss, perlite, coir, dolomite lime, mycorrhizae, organic wetting agent, calcium silicate

Sunshine® Mix #4 High Porosity*

- Ideal for cutting and seed propagation, potted bedding plants and perennials, and container-grown herb and vegetable crops
- Ready to Gro
- Contains RESILIENCE®

Available Sizes:
3.8 cu ft (30/pallet)

Contains: Canadian sphagnum peat moss, a higher percentage of perlite than our other Mix 4 formulas, dolomite lime, pH adjuster, wetting agent, calcium silicate

*Limited distribution

Proven Winners® updated Soils & Plant Foods Available Nationwide!

Not actual size

Better Products, Better Gardens

Discover the perfect synergy of premium plants, top-quality potting soil and nourishing plant foods for unparalleled garden success. Engineered to elevate the growth of Proven Winners® and other flowering plants, our Proven Winners® Premium Potting Soils and Plant Foods have become the cornerstone of skyrocketing sales and profitability.

Premium Potting Soils

- Two sizes: 1.5 cu ft and 16 qt
- Uses only the highest quality professional grower grade peat moss, composted bark and perlite. Contains dolomite lime to buffer soil pH, and a professional grade wetting agent.
- Feeds plants up to 6 months.

Premium Water Soluble Plant Food

- Unique 24-12-17 NPK ratio designed specifically to maximize flowering and growth of Proven Winners® plants.
- Contains the EDDHA form of iron, which allows plants to use iron efficiently at varying pH ranges, so plants are healthier and greener.
- Available in a 2.5 lb. size.

Premium Continuous Release Plant Food

- Long-lasting 6-month formulation designed to release nutrients all season long.
