

# Pelemix™ MJOT Open Tops

For hydroponic horticulturists seeking a versatile, sustainable and highly effective growing medium, Pelemix™ MJOT Open Tops are the ultimate solution. Made from 100% natural coconut husks, our coco coir open tops are expertly compressed into convenient, easy-to-handle blocks, ensuring maximum space efficiency and ease of use. Excellent for cannabis, tomatoes and citrus.

## Bio-friendly cloth open tops are:

- Sustainable and biodegradable
- Enhanced breathability and root health
- Versatile and practical

## Pre-drilled hydration holes provide:

- Optimal water distribution for even hydration
- Enhanced drainage and aeration
- Reduced labor and mishaps

## Extra Washed Open Tops

### For organic growing

- Item number: OT-181515-M130-02
- Product description: PLF 3070 EW (EC <0.6) Bio Bag + Holes

## Treated Open Tops

### Treated with calcium nitrate for lower EC levels

- Item number: OT-181515-M173-07
- Product description: PLF 3070 TR Bio Bag + Holes
