**New &
Available**

Pelemix takes pride in providing a sustainable green solution in a world where growers and consumers demand organic and eco-friendly cultivation options.

Coco Coir is produced from the process of extracting fiber from the outer husk of coconut. Pelemix offers a range of 100% natural raw material products.

Our customers will now have the ease of doing business with one company from start to finish for all their coconut coir and peat-based professional growing media needs.

- Premium quality 5 kg bales including nursery grade fines, 8 mm 16 mm, PLF Blends, 10 C chips
- Available in natural washed, extra washed (low EC) or treated (buffered in calcium Nitrate)
- 70 + liters (or 2.5 + cubic ft) of loose coco coir per fully hydrated 5 kg bale

Available Sizes:

30x30x10 cm (~ 9 liters when compressed)

Ingredients: Coir

Pelemix Grow Bags

- Cannabis is a perennial, dioecious flowering herb
- In recent years more and more countries have approved the growth of cannabis plants for medical and recreation purposes
- Cannabis requires a well drained substrate to allow for proper manipulation of vegetative growth in the initial vegetative stage and generative growth in the flowering and buds development stage
- 30/70 blend of chips and premium long fiber

Available Sizes:

4 L, 6.5 L, 9 L

(Most sizes available with MOQ)

All sizes available in Biodegradable non-woven fabric

Ingredients: Coir

Pelemix Open Top

- Berries production and consumption has been increasing rapidly in recent years
- Greenhouses and mainly tunnels are being used to extend the growing season and harvesting period.
- Blueberries, raspberries and other kinds of berries are traditionally grown in the ground. The soil should be well-drained, yet with sufficient moisture holding capacity
- Premium Long Fiber (PLF) a combination of coco chips and coco fibers

Available Sizes:

OT 30x30x27 PRO 7030

30 cm length x 30 cm width x 27 cm height - bag volume 27 liters

OT 25x18x16 PLF

18 cm length x 25 cm width x 16 cm height

Ingredients: Coir

Pelemix Grow Bags

- Grow bags are coco coir compressed slabs, wrapped by a polyethylene bag
- Planting and drainage holes can be ordered in advance or easily made at the plot
- Coco coir grow bags enable the grower full control over the crop
- 30/70 blend of chips and premium long fiber

Available Sizes:

GB 100 cm length x 15 cm width x 12 cm height
PLF 3070 NW P2Y+HOLES

GB 100 cm length x 18 cm width x 14 cm height
PLF 3070 NW P2Y+HOLES

GB 100 cm length x 20 cm width x 10 cm height
PLF 3070 NW P2Y+HOLES

Ingredients: Coir
