north
american
horticultural
leadership

Sun Gro Horticulture is one of the most prominent North American horticultural companies, employing over 900 staff and serving customers worldwide.

Since its humble beginnings in 1929, it has become the leading supplier of soilless growing mixes to North America's leading greenhouse and nursery growers, shipping over 70,000 truckloads of product annually for professional and retail – consumer markets. The ingredients in our peat and bark-based mixes are developed by professional horticulturists and produced under the industry's highest quality standards.

Sun Gro products are made to exacting standards and conform to high product quality and performance criteria. We offer extensive testing and analytical services for water, media and tissue analysis as well as professional horticultural technical advice and resources for growers.

Developed by professional horticulturists and produced under the industry's highest quality standards, we offer over 100 professional and retail products.

In addition, we offer extensive testing and analytical services for water, media and tissue analysis as well as professional horticultural advice and resources for growers.

From bog to bag to you!

Sun Gro Horticulture is the leader in sustainable peat resources.
We endorse and support the Canadian Sphagnum Peat Moss Association's definition of sustainable peatland management as the "balanced stewardship of the environmental, social and economic values of Canada's renewable peatland resource."

- Committed to environmental sustainability
- Sustaining Canadian sphagnum peatlands

1

HOW BOGS WERE FORMED

Peat bogs were formed from melting glaciers.

Plants grew and died, creating decomposed organic residue.

Sphagnum peat moss holds nutrients in the soil.

2

THE SOURCE

Canada is the source of Sun Gro's peat moss.

270 million acres of bog in northern wetlands.

25% of the world total.

3

HOW WE HARVEST

The peatland is harrowed inches deep and vacuumed up.

There are only 40-50 suitable harvest days per year.

4

QUALITY OF THE HARVEST

A typical harvest delivers 75% professional grade (closer to the surface) and 25% consumer retail.

5

THE RIGHT BOG

Bogs are chosen for harvest by their suitability for restoration. They can be returned to near-original state in as little as 5 years.

6

CONSUMER + PROFESSIONAL

Since 1929, Sun Gro has created the highest quality, most advanced mixes, and peat products for consumers and professional growers.

7

ACROSS NORTH AMERICA

Sun Gro operates over 20 production facilities across North America, where peat is processed with and without other ingredients such as bark, compost, perlite and RESILIENCE®.

8

INDUSTRY LEADING HORTICULTURAL SCIENCE

Industry leading science and R&D with Sun Gro's specialists.

9

WE FILL MILLIONS OF BAGS

We handle thousands of tons and fill millions of bags per year.

10

RESILIENCE®

Plants grown in RESILIENCE®, our trade name for Silicon (Si) – a beneficial plant substance, may result in*

- Earlier flowering
- Better root growth
- Longer time to wilt
- Increased stem diameter - And recover quicker from infrequent watering

*Results will vary by plant type and grower practices.

11

70,000 TRUCKS

Sun Gro fills over 70,000 trucks with growing media each year and travels coast to coast and everywhere in between, covering 1000s of miles every year to deliver it.

12

COMMERCIAL GROWER LEADER

The majority of North America's commercial growers rely on Sun Gro for high quality peat moss and peat based growing media.

13

EVERY GARDENING NEED

Our many brands cover every gardening need – from general gardening to container – specific planting to specialty plants and foods.

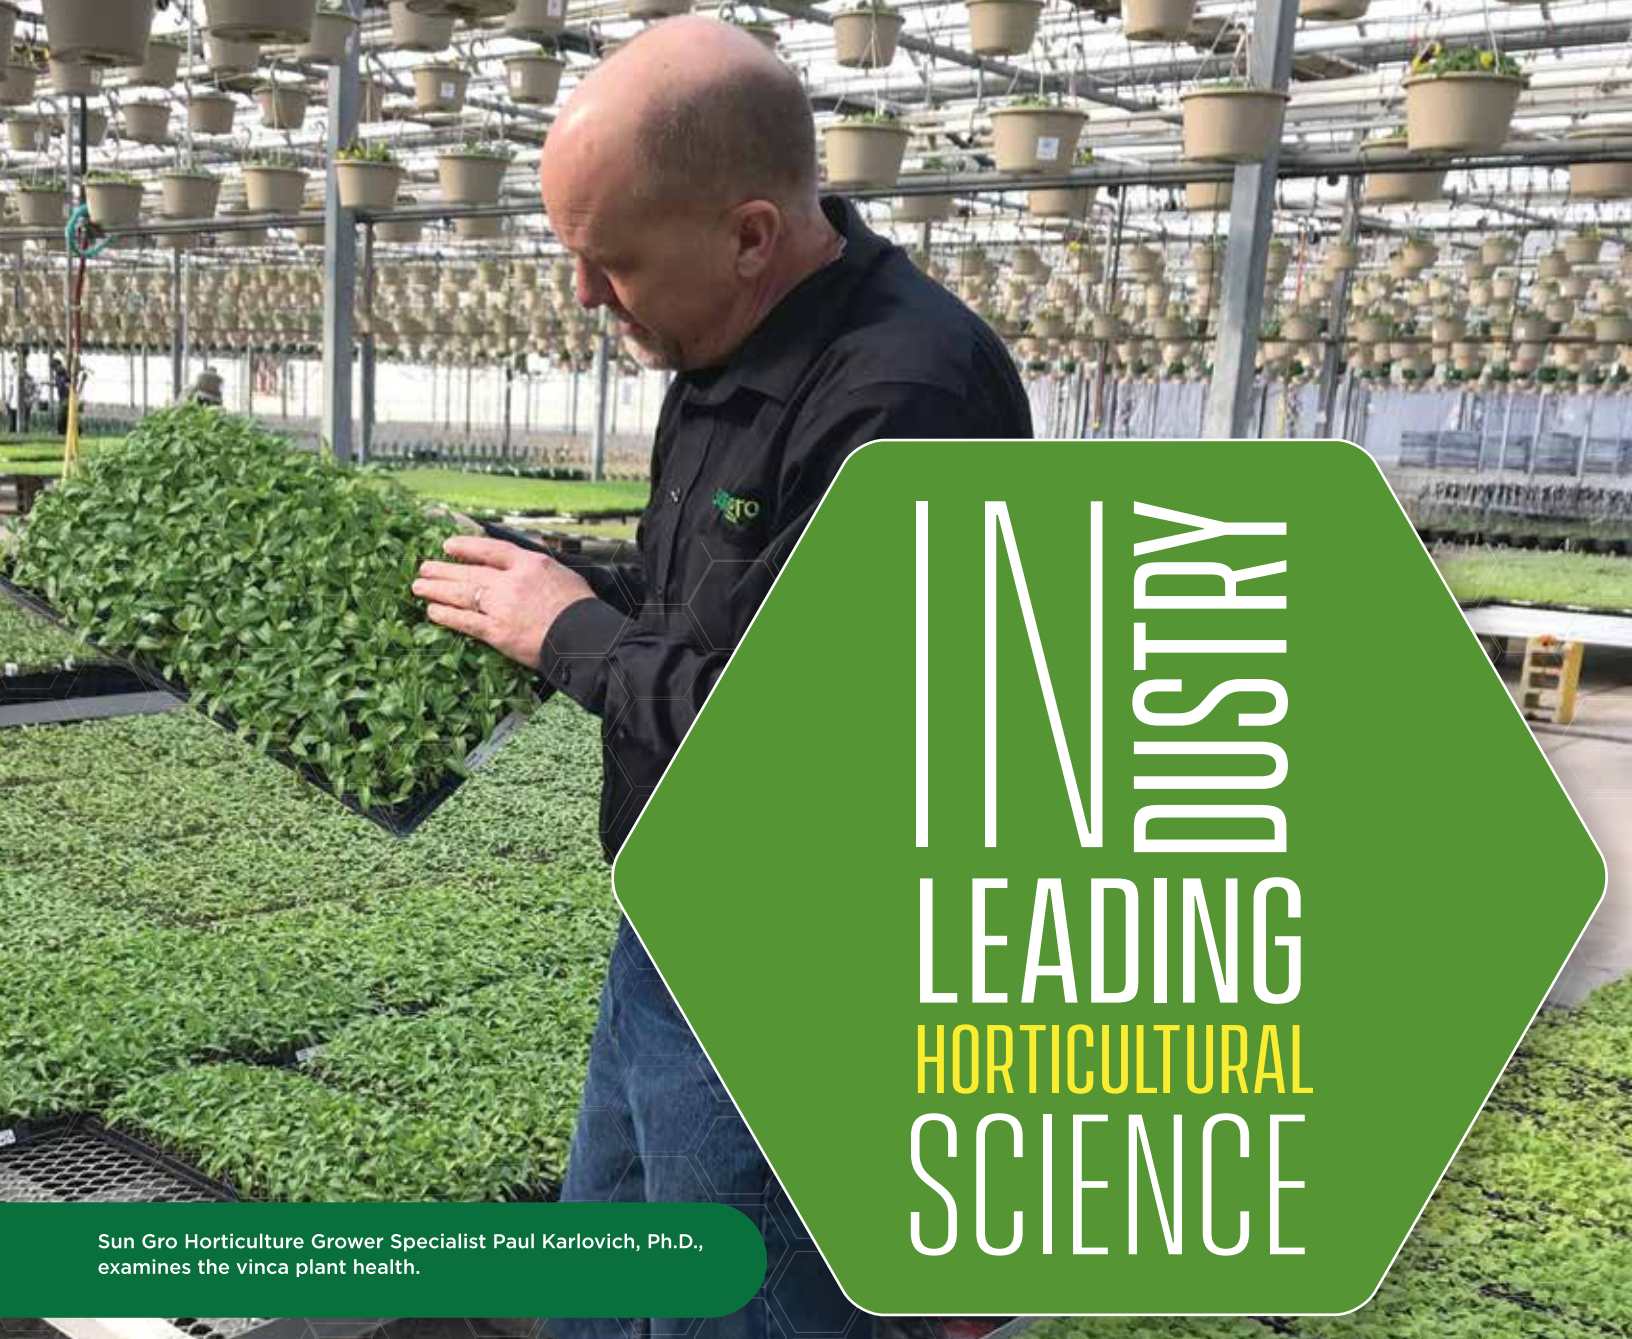

14

FOR EVERY GARDENER

The enthusiast gardener, the hobbyist and the weekend gardener will all find products to suit their plants, projects and lifestyle.

Veriflora® Responsibly Managed Peatlands
The Veriflora Responsibly Managed Peatlands program is the world's leading certification for sustainable peat moss cultivation. Certified growers must demonstrate a commitment to ecosystem protection, integrated waste management, and support for worker's rights.

Sun Gro Horticulture Grower Specialist Paul Karlovich, Ph.D., examines the vinca plant health.

Sun Gro horticultural scientists provide growers with industry leading technical insights and solutions for higher yields and improved crop time supported with our best-fit greenhouse and nursery mixes.

Sun Gro provides the best analytical services to meet our customers' needs and to optimize all your growing parameters, including:

- Water Analysis • Growing Media Analysis
- Plant Tissue Analysis • Fertilizer Analysis

Our Grower Specialist team will help you:

- Choose the right products and formulations for your needs
- Answer technical questions • Interpret test results
- And Improve your growing operations

#1

CANADIAN SPHAGNUM PEAT MOSS

WHAT IS IT? Sphagnum peat moss for growing media comes from the non-living, fibrous sphagnum moss that has partially decomposed in a bog. It's light and spongy and crumbles into small clumps.

WHAT DOES IT DO? Peat moss has a remarkable ability to efficiently hold water and nutrients that may otherwise leach out of the soil. It's nature's best all-purpose soil conditioner, which is why Sun Gro adds it to all key professional and retail mixes.

#2

BARK

WHAT IS IT? Composted bark comes from the forest product industry. The bark is shredded or chipped and then composted to make it a higher value mix component.

WHAT DOES IT DO? When added to growing mix, aged or composted bark increases air capacity. Its unique particle size and shape allows air to circulate through the soil, improving oxygen availability to plant roots.

#3

PERLITE

WHAT IS IT? Perlite is derived from crushed volcanic rock, which is expanded (popped) in a furnace. Perlite particles are lightweight, roundish and white.

WHAT DOES IT DO? Perlite is a natural additive for growing media used to aerate mixes.

#4

COIR

WHAT IS IT? Coir is a blend of short fiber and pith left after coconut fiber is extracted from coconut husks.

WHAT DOES IT DO? Coir adds bulk and texture to potting mixes. The short fibers and sponge like pith can provide aeration and water holding in mix.

#5

COMPOST

WHAT IS IT? Compost is decomposed organic material.

WHAT DOES IT DO? Compost is added to mixes to provide natural, stabilized organic matter. It also has excellent water-holding ability.

#6

RESiLIENCE®

WHAT IS IT? RESiLIENCE is Sun Gro's brand name for growing mixes enriched with silicon. Silicon is an abundant element naturally found in soils.

WHAT DOES IT DO? Silicon (Si) is a beneficial plant substance for growing medium or soil that can enhance plant quality. RESiLIENCE® plant growth effects may include thicker/stronger stems, more compact growth, increased root mass and improve resistance to wilting.

#7

EARTHWORM CASTINGS

WHAT IS IT? Earthworm castings (vermicastings) are the organic waste products from earthworms. Earthworms consume organic matter, and their castings are collected for soil enrichment.

WHAT DOES IT DO? Castings from earthworms are nutrient rich, biologically active, and used to enrich mixes and garden soils for improved plant performance.

We all know the importance of using superior professional growing mixes to get the best results. It's critical in the plants you sell - and it's critical that you help your customers choose plants grown in superior mixes so they can grow vigorous gardens. And then become repeat customers.

Sun Gro professional and retail products are made with premium ingredients and meet the highest quality standards.

The major role of a growing mix is to support plants, while holding water, air, and nutrients to promote vigorous growth. The following is a brief overview of each of the quality components Sun Gro may use in our mix formulations.

'NATURAL' PRODUCTS

Other components such as perlite, gypsum, limestone and RESiLIENCE® silicon are defined as 'natural' which means they are not carbon based but they are obtained from natural deposits and processed without the use of synthetic chemicals - these materials are mined, ground up and screened, and expanded in the case of perlite.

'ORGANIC' PRODUCTS

Organic products are defined by Sun Gro as ingredients that are carbon based, were once alive and are without the addition of synthetic chemicals. Some examples are peat moss, bark, organic fertilizers and organic wetting agents.

silicon is in our mix.

Plants grown in RESiLIENCE®, our trade name for silicon, already in the mix, may result in*:

RESiLIENCE® - a beneficial plant substance that may make a plant stronger*

*Results will vary by the kind of plant you grow and how you grow it.
www.sungro.com/insight-innovation/resilience/

Ask about our industry and university research regarding the positive effects of silicon in growing media re: copper toxicity, heavy metals, stress tolerance, insect, pest and disease control

USDA-ARS research suggests the addition of silicon to a nutritional program can be beneficial. ARS researchers have conducted numerous studies and are making progress in the use of silicon in crops grown in soilless mixes.

Read more here about USDA research here:

<https://www.ars.usda.gov/midwest-area/wooster-oh/application-technology-research/docs/silicon-studies/>

It's *already* in the mix™

Trichomes on Flowers

- Trichomes of RESiLIENCE[®] plants had large, well-developed “heads” that were full of secretions (yellow-green color).
- The trichomes on plants that were grown in non-RESiLIENCE[®] mixes did not have any heads.

Trichomes on Petioles

- Trichomes of RESiLIENCE[®] plants had large, well-developed “heads” that were full with secretions.
- With Standard Mix, trichome heads were smaller and most were empty.
- Competitor mix trichomes did not have any heads.

Canadian Sphagnum Peat Moss

Our select line of **Canadian sphagnum peat moss** is 100% organic, OMRI Listed® and Veriflora Certified. The high water holding capacity and excellent aeration makes our peat moss the choice for growers who mix their own or other professional uses.

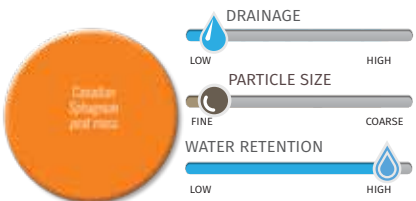

Sun Gro Canadian Sphagnum Peat Moss

Grower Grade Green

A screened, high quality, professional peat. It has short fibers with few or no sticks which produces a fine texture with good water retention. This peat is excellent for seedling or plug production. Also, it is often used in the golf course construction.

Contains: Canadian Sphagnum Peat Moss

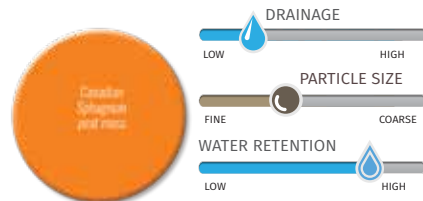

Available sizes: SunTower 110 cu ft (1/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft bale (30/pallet)

Grower Grade Orange

A screened, high quality professional peat with a medium texture, few sticks and a rich brown color. It holds water and nutrients well, making them available for later plant uptake. Excellent for cutting propagation and large plug production; as well as vegetable, flowering plant and mushroom production.

Contains: Canadian Sphagnum Peat Moss

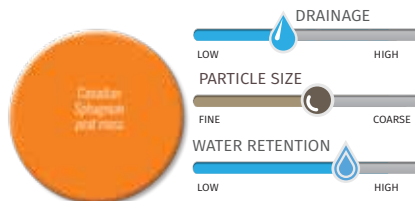

Available sizes: SunTower 110 cu ft (1/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft bale (30/pallet)

Grower Grade White

A high quality, fibrous peat with a coarse texture and light color. It has a perfect balance of drainage, water retention and air space which makes it excellent for vegetable, flowering plant and nursery production in large pots and hanging baskets.

Contains: Canadian Sphagnum Peat Moss

Available sizes: SunTower 110 cu ft (1/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft bale (30/pallet)

See page 5 for Veriflora® description

+Pallet counts vary by site due to raw material variability. Please contact your local Sun Gro Customer Resource Center for specific pallet counts for your area. RESILIENCE® available in select regions.

Propagation Mixes

Sun Gro® propagation mixes are designed for a wide variety of plant types as well as a growing medium for cell packs and small propagule types. Available in standard and Natural & Organic.

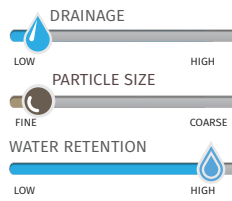

It's *already* in the mix™

Sun Gro Propagation Professional Mixes

Designed to enhance root development in propagation of ornamental and vegetable transplants. Also available in natural & organic, OMRI Listed®, for organic growing.

Sunshine Mix #5

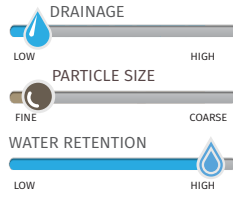

Contains: Fine Canadian Sphagnum Peat Moss, Fine Perlite, Dolomite Lime, Long-lasting Wetting Agent, RESiLiENCE®

Available sizes:
SunTower 110 cu ft (1/pallet), loosefill totes (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (51-54/pallet)

Sunshine Mix #5 Natural & Organic

Contains: Fine Canadian Sphagnum Peat Moss, Fine Perlite, Dolomite Lime, Organic Wetting Agent, RESiLiENCE®

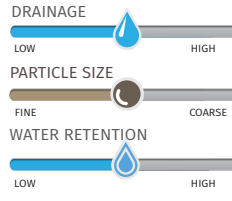

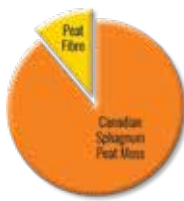

Available sizes:
SunTower 110 cu ft (1/pallet), 80 cu ft loosefill totes (2/pallet), 75 cu ft loosefill totes (2/pallet), 60 cu ft loosefill (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (51-54/pallet)

Sun Gro® Perlite-Free Plug Mix RESiLiENCE®

Professional propagation mix designed for growers who require a perlite-free plug and propagation mix with similar performance and characteristics to Redi-Earth Plug Mix.

Contains: Canadian Sphagnum Peat Moss, RESiLiENCE®

Available sizes:
SunTower 110 cu ft (1/pallet), 64 cu ft loosefill (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (54/pallet)

See page 5 for Veriflora® description

+Pallet counts vary by site due to raw material variability. Please contact your local Sun Gro Customer Resource Center for specific pallet counts for your area. RESiLiENCE® available in select regions.

Peat Mixes

Sunshine[®] products are produced under the industry's highest quality standards and designed to meet the unique needs of your crops while fitting into the flow of your operations. We offer these in either compressed or loosefill packaging in a variety of sizes, from the easy-to-handle 3.8 cubic foot bale to the economy-sized Big Shot or SunTower.

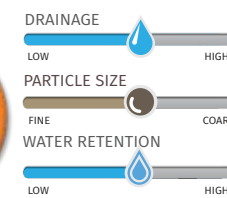

It's *already* in the mix™

Sun Gro Professional Peat Mixes

Sunshine Mix #1

An all-purpose lightweight growing mix, our most versatile peat based formulation for expert growers. It is used for a wide variety of crops from cuttings to finished product

Contains: Canadian Sphagnum Peat Moss, Perlite, Dolomite Lime, Long-Lasting Wetting Agent, RESILIENCE[®]

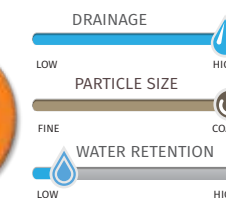

Available sizes:

SunTower 110 cu ft (1/pallet), 80 loosefill totes (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (51-54/pallet)

Sunshine Mix #4

Recommended where high air capacity and fast drainage are needed: during winter months, with water and salt sensitive crops, or where frequent leaching is required.

Contains: Canadian Sphagnum Peat Moss, Coarse Perlite, Dolomite Lime, Long-lasting Wetting Agent, RESILIENCE[®]

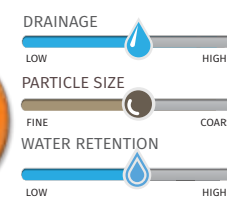

Available sizes:

SunTower 110 cu ft (1/pallet), 80 loosefill totes (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (51-54/pallet)

Sunshine Mix #15

Recommended for the production of a wide variety of flats, potted plants and hanging baskets. It is also suitable for rooting of cuttings.

Contains: Canadian Sphagnum Peat Moss, Perlite, Dolomite Lime, Long-lasting Wetting Agent, RESILIENCE[®]

Available sizes:

SunTower 110 cu ft (1/pallet), 80 loosefill totes (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (51-54/pallet)

SunTower[®]

SunTower brings a whole new dimension to compressed growing media. It's a 110 cu ft compressed bale that combines convenience, economic savings, transports easily and can be stored outdoors.

- Reduces packaging waste
- Improves your efficiency
- Saves time in unloading
- 22-24 SunTowers per load
- Equivalent to more than 28 - 3.8 cu ft bales
- Now available everywhere!

Big Shot[®]

Our 55 cu ft compressed Big Shot bale lends itself to the most efficient mechanized handling available. This means less handling and lower packaging disposal costs. Big Shot is available in a "cube" format, or with a lifting panel.*†

See page 5 for Veriflora[®] description

*Pallet counts vary by site due to raw material variability. Please contact your local Sun Gro Customer Resource Center for specific pallet counts for your area. RESILIENCE[®] available in select regions.

RESILIENCE[®] available in select regions. *Additional Sunshine Natural & Organic formulations available on www.sungro.com. † Available from the Western Region only. *Pallet counts vary by site due to raw material variability. Please contact your local Sun Gro Customer Resource Center for specific pallet counts for your area.

Perlite-Free Professional Growing Mixes

Sun Gro® Professional Perlite-Free Growing Mixes were designed for growers who require a perlite-free mix. These blended mixes contain grower grade Canadian sphagnum peat moss. This combination of particle size will provide optimum aeration, moisture retention and porosity for plant roots.

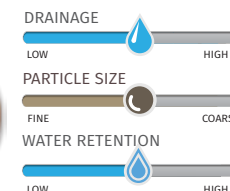

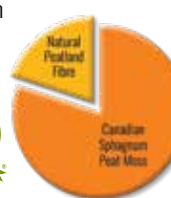

It's *already* in the mix™

Sun Gro Perlite-Free Mixes

Sun Gro® Mix Perlite-Free Natural Peatland Fibre RESiLIENCE®

This blended mix contains grower grade Canadian sphagnum peat moss and natural peatland fibre with similar performance and characteristics to SunShine® Mix #1

Contains: Canadian Sphagnum Peat Moss, Natural Peatland Fibre, RESiLIENCE®

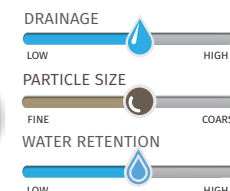

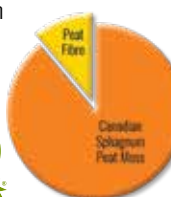

Available sizes:

SunTower 110 cu ft (1/pallet), 64 cu ft loosefill (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (54/pallet)

Sun Gro® Perlite-Free Mix RESiLIENCE®

This blended mix contains grower grade Canadian sphagnum peat moss with similar performance and characteristics to Euro Style Mixes.

Contains: Canadian Sphagnum Peat Moss, Dolomite Lime, Long-lasting Wetting Agent, RESiLIENCE®

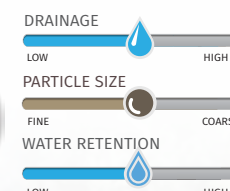

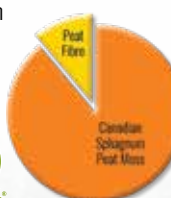

Available sizes:

SunTower 110 cu ft (1/pallet), 64 cu ft loosefill (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (54/pallet)

Sun Gro® Perlite-Free Mix X-Coarse RESiLIENCE®

This blended mix contains grower grade Canadian sphagnum peat moss with similar performance and characteristics to Euro Style Mixes.

Contains: Canadian Sphagnum Peat Moss (Coarse Grade), Dolomite Lime, Long-lasting Wetting Agent, RESiLIENCE®

Available sizes:

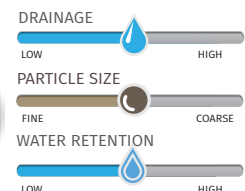

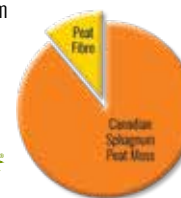

SunTower 110 cu ft (1/pallet), 64 cu ft loosefill (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (54/pallet)

Not available in all regions. Ask your district manager or sales contact for more information.

Sun Gro® Perlite-Free Plug Mix RESiLIENCE®

Professional propagation mix designed for growers who require a perlite-free plug and propagation mix with similar performance and characteristics to Redi-Earth Plug Mix.

Contains: Canadian Sphagnum Peat Moss, RESiLIENCE®

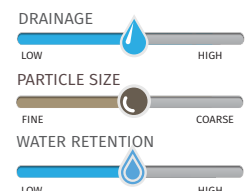

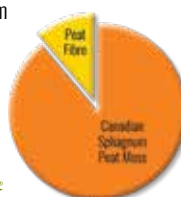

Available sizes:

SunTower 110 cu ft (1/pallet), 64 cu ft loosefill (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (54/pallet)

Sun Gro® Perlite-Free Mix Natural & Organic RESiLIENCE®

This blended mix contains grower grade Canadian sphagnum peat moss with similar performance and characteristics to Euro Style Mixes.

Contains: Canadian Sphagnum Peat Moss, Dolomite Lime, Long-lasting Wetting Agent, RESiLIENCE®

Available sizes:

SunTower 110 cu ft (1/pallet), 64 cu ft loosefill (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (54/pallet)

See page 5 for Veriflora® description

Bark Mixes

Our **Metro-Mix[®]** bark mixes offer a broad range of applications ranging from small cell-packs to large containers. All formulas are pH adjusted and contain our long-lasting wetting agent.

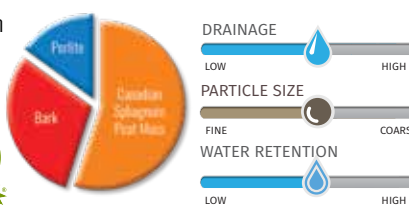

It's *already* in the mix™

Sun Gro Professional Bark-Based Mixes

Metro-Mix 830

This versatile formula, is our most popular bark-based mix for expert growers. It is a fit for a wide range of crops grown in many container sizes from cell flats to larger pots and hanging baskets.

Contains: Canadian Sphagnum Peat Moss, Bark, Perlite, Dolomite Lime, Wetting Agent, RESiLIENCE[®]

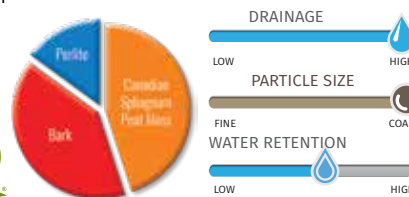

Available sizes:
60 cu ft loosefill (2/pallet), 2.8 cu ft loosefill (48 pallet)

Metro-Mix 840

A medium textured, well-drained, enhanced air capacity general purpose mix. It is well suited for growing crops in containers ranging from cell packs to hanging baskets.

Contains: Canadian Sphagnum Peat Moss, Bark**, Coarse Perlite, Dolomite Lime, Long-lasting Wetting Agent, RESiLIENCE[®]

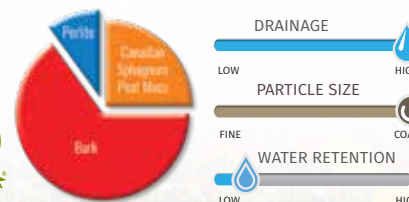

Available sizes:
60 cu ft loosefill (2/pallet), 2.8 cu ft loosefill (45 pallet), Bulk

Only available in U.S.

Metro-Mix 865

A heavyweight mix for perennial growers. Contains a high bark content for superior drainage and excellent container stability. Suitable for rooftop gardens.

Contains: Bark**, Canadian Sphagnum Peat Moss, Perlite, Dolomite Lime, Long-lasting Wetting Agent, RESiLIENCE[®]

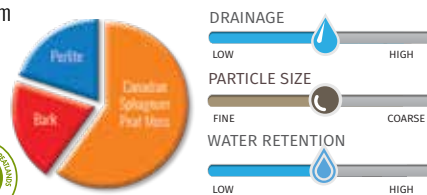

Available sizes:
60 cu ft loosefill (2/pallet), 2.8 cu ft loosefill (40 pallet), Bulk

Only available in U.S.

Metro-Mix 820

A medium textured, well-drained growing mix for hanging baskets and potted crops.

Contains: Canadian Sphagnum Peat Moss, Bark**, Coarse Perlite, Dolomite Lime, Long-lasting Wetting Agent, RESiLIENCE[®]

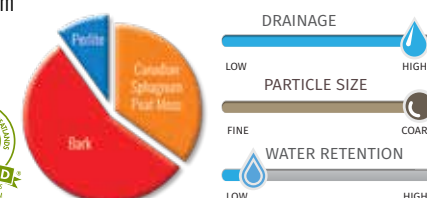

Available sizes:
60 cu ft loosefill (2/pallet), 2.8 cu ft loosefill (48 pallet), Bulk

Only available in U.S.

Metro-Mix 852

Formulated with a higher bark percentage for outdoor containers and large interior pots making it an excellent choice in perennial, rose and nursery production. It is an excellent mix for long-term crops. Suitable for rooftop gardens.

Contains: Canadian Sphagnum Peat Moss, Perlite, Bark, Dolomite Lime, Long-lasting Wetting Agent, RESiLIENCE[®]

Available sizes:
60 cu ft bulk bag (2/pallet), 2.8 cu ft bags (42/pallet)

Natural & Organic Mixes

Sun Gro[®] Natural & Organic professional mixes are OMRI Listed[®], contain RESiLIENCE[®] and are developed for a wide variety of crops. Our blends offer everything from high air capacity and fast drainage to appropriate balances of Canadian sphagnum peat moss and horticultural grade perlite to shorter fiber peat for propagation mixes.

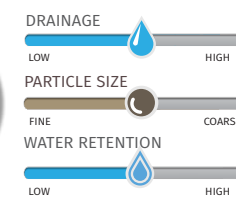

It's *already* in the mix[™]

Sun Gro Natural & Organic Mixes

Sunshine Mix #1 Natural & Organic with Earthworm Castings

Recommended where high air capacity and fast drainage are needed: during winter months, with water and salt sensitive crops or where frequent leaching is required.

Contains: Canadian Sphagnum Peat Moss, Coarse Perlite, Earthworm Castings, Gypsum, Dolomite Lime, Organic Wetting Agent, RESiLIENCE[®]

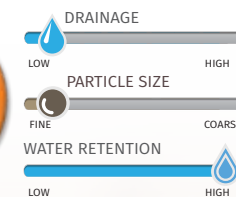

Available sizes: 110 cu ft (1/pallet), 60, 75 or 80 cu ft loosefill (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (51-54/pallet)

Sunshine Mix #5 Natural & Organic

Designed to enhance root development in ornamental and vegetable transplant plugs.

Contains: Fine Canadian Sphagnum Peat Moss, Fine Perlite, Dolomite Lime, Organic Wetting Agent, RESiLIENCE[®]

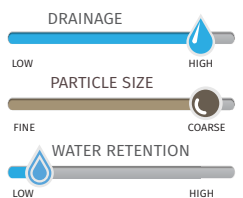

Available sizes: 110 cu ft (1/pallet), 60, 75 or 80 cu ft loosefill (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (51-54/pallet)

Sunshine Mix #4 Natural & Organic

Recommended where high air capacity and fast drainage are needed: during winter months, with water and salt sensitive crops or where frequent leaching is required.

Contains: Canadian Sphagnum Peat Moss, Coarse Perlite, Dolomite Lime, Organic Wetting Agent, RESiLIENCE[®]

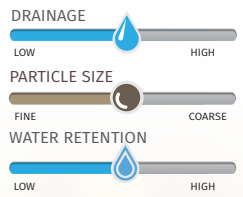

Available sizes: 110 cu ft (1/pallet), 60, 75 or 80 cu ft loosefill (2/pallet), Big Shot 55 cu ft (2/pallet), 2.8 cu ft loosefill (51-54/pallet)

Sunshine Mix #15 Natural & Organic

Designed to enhance root development in ornamental and vegetable transplant plugs.

Contains: Canadian Sphagnum Peat Moss, Perlite, Dolomite Lime, Long-lasting Organic Wetting Agent, RESiLIENCE[®]

Available sizes: SunTower 110 cu ft (1/pallet), 80 loosefill totes (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (51-54/pallet)

Only available in U.S.

See pages 4 - 5 for Veriflora[®] description

*Available in select regions.

+Pallet counts vary by site due to raw material variability. Please contact your local Sun Gro Customer Resource Center for specific pallet counts for your area. RESiLIENCE[®] available in select regions.

Hemp Propagation Mixes

Sunshine® propagation and cultivation mixes are designed for enhanced root development in crops such as hemp. They are the only professional cultivation mixes with RESiLIENCE® - our trade name for Silicon (Si) which is a beneficial plant substance already incorporated in the mix.

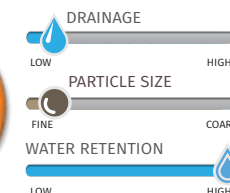

It's *already* in the mix™

Sun Gro Hemp Propagation Mixes

Sunshine Mix #5

Designed for seedling production in small cells.

Contains: Fine Canadian Sphagnum Peat Moss, Fine Perlite, Dolomite Lime, Long-Lasting Wetting Agent and RESiLIENCE®

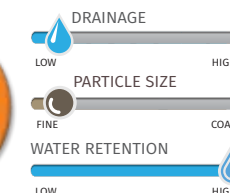

Available sizes:

SunTower 110 cu ft (1/pallet), loosefill totes (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (51-54/pallet)

Sunshine Mix #5 Natural & Organic

Ideal for organic growing; OMRI Listed®.

Contains: Fine Canadian Sphagnum Peat Moss, Fine Perlite, Dolomite Lime, Organic Wetting Agent and RESiLIENCE®

Available sizes:

SunTower 110 cu ft (1/pallet), 80 cu ft loosefill totes (2/pallet), 75 cu ft loosefill totes (2/pallet), 60 cu ft loosefill (2/pallet), Big Shot 55 cu ft (2/pallet), 3.8 cu ft (30/pallet), 2.8 cu ft loosefill (51-54/pallet)

Ask about our new tote and bulk mixes - traditional and natural & organic.

Technigro® Water Soluble Fertilizer

Technigro® Water-Soluble Fertilizer is the most soluble fertilizer on the market with added sulfur and magnesium in many formulas for greener, healthier growth. Packaged in a thick plastic bag for extra protection against hardening and ease of handling.

Sun Gro Water-Soluble Fertilizers

Technigro - Perhaps the most soluble fertilizer on the planet!

Technigro is an effective, high-quality water-soluble fertilizer that dissolves quickly regardless of water quality, irrigation equipment or injector. Technigro fertilizers stay in solution and never leave residue in the bottom of the tank. With Technigro, growers spend less time dealing with solubility problems while effectively fertilizing their crops.

- **Technigro 20-9-20 Plus** – Our best formula for a wide range of crops and conditions. This high nitrate formula is an excellent source to supply readily available sulfur resulting in improved plant vigor and deeper green leaves. Its acidifying effect is useful where irrigation waters have a moderate alkalinity.
- **Technigro 13-2-13 Plus Contains 6% Calcium & 3% Magnesium** – Great for plugs and bedding plants using relatively pure irrigation water or where excess alkalinity is controlled. Contains phosphorous, calcium and magnesium; no need to alternate feed programs.
- **6-30-30 plus** – Recommended when you want high phosphorous and potassium, with low nitrogen levels. The 1:5:5 ratio may enhance flowering in some species by helping maintain an appropriate N:P ratio while contributing to enhanced root growth. The additional potassium helps enhance plant vigor.
- **15-5-15 Plus Contains 5% Calcium & 2% Magnesium** – An all purpose formulation useful in a wide range of crops and conditions. It produces low to moderate basic reaction to help maintain pH not rising too high in growing mix. This high nitrate formula is an excellent source to supply readily available nitrogen.

All Technigro "Plus" formulations are recommended for use in peat-lite growing media that do not contain appreciable amounts of micronutrients.

Ask about our other fertilizer formulations and product details.

Pelemix takes pride in providing a sustainable green solution in a world where growers and consumers demand organic and eco-friendly cultivation options.

Coco Coir (known as Coir Pith, Coco Coir, Coir Fibre, Cocos, Coir dust) is produced from the process of extracting fiber from the outer husk of coconut. Pelemix offers a range of 100% natural raw material products.

Sun Gro Pelemix Coir Substrates

Pelemix takes pride in providing a sustainable green solution in a world where consumers demand organic and eco-friendly cultivation options.

Pelemix Coir Blocks

- Bales are available as regular, washed and treated the material.
- The coco coir is compressed into 5 kg bales
- After hydration of the bales (adding water to the compressed bale), the yield for each bale should be 65-70 liter of loose coco coir
- Bales are available as regular, washed and fully treated

Available Sizes:
30x30x10 cm (~ 9 liters when compressed)

Ingredients: Coir

Pelemix Grow Bags

- Cannabis is a perennial, dioecious flowering herb
- In recent years more and more countries have approved the growth of cannabis plants for medical and recreation purposes
- Cannabis requires a well drained substrate to allow for proper manipulation of vegetative growth in the initial vegetative stage and generative growth in the flowering and buds development stage
- Premium Long Fiber (PLF) a combination of coco chips and coco fibers

Available Sizes:
GB 100x15x12 PLF 3070 (250/pallet)
100 cm width x 15 cm length x 12 cm height - bag volume 27 liter

GB 100x18x14 PLF (250/pallet)
100 cm width x 18 cm length x 14 cm height

GB 100x20x10 PLF (250/pallet)
100 cm width x 20 cm length x 10 cm height

Ingredients: Coir

Pelemix Open Top

- Berries production and consumption has been increasing rapidly in recent years
- Greenhouses and mainly tunnels are being used to extend the growing season and harvesting period.
- Blueberries, raspberries and other kinds of berries are traditionally grown in the ground. The soil should be well-drained, yet with sufficient moisture holding capacity
- Premium Long Fiber (PLF) a combination of coco chips and coco fibers

Available Sizes:
OT 30x30x27 PRO 7030
30 cm width x 30 cm length x 27 cm height - bag volume 27 liters

OT 25x18x16 PLF
25 cm width x 18 cm length x 16 cm height

Ingredients: Coir

Tomato Grow Bags

- Tomato grow bags are coco coir compressed slabs, wrapped by a polyethylene white/black bag
- Planting and drainage holes can be ordered in advance or easily made at the plot
- Coco coir tomato grow bags enable the grower full control over the crop
- Premium Long Fiber (PLF) a combination of coco chips and coco fibers

Available Sizes:
GB 100x15x12 PLF 3070 (250/pallet)
100 cm width x 15 cm length x 12 cm height

GB 100x18x14 PLF (250/pallet)
100 cm width x 18 cm length x 14 cm height

GB 100x20x10 PLF (250/pallet)
100 cm width x 20 cm length x 10 cm height

Ingredients: Coir

Helping Gardeners Create Beautiful and Vigorous Gardens

Sun Gro offers several IGC-oriented brands, which are held to the high industry standards of its professional lines. These include well known industry names like **Black Gold®**, **Sunshine®** and **Sunshine® Mix #4**.

Each brand has a distinct set of characteristics that sets it apart from the rest; among them you will find a wide array of potting, specialty mixes and garden amendments.

Many are OMRI Listed® products approved for organic gardening. **Sun Gro's** Canadian production facilities are Veriflora Certified for sustainability, and as a founding member of the Canadian Sphagnum Peat Moss Association, Sun Gro practices sustainable peatland management.

potting mixes, specialty mixes and
garden amendments

Black Gold® Potting Mixes, Amendments and Garden Fertilizers

Black Gold is one of the most successful garden centre brands in the US - offering quality soils, amendments and fertilizers since 1983. It has become the preferred brand of choice among organic gardening enthusiasts - those that expect the best quality and results.

All Black Gold Mixes are made to the same exacting standards as the Sun Gro professional lines and formulated with the highest quality ingredients by professional horticulturists.

Black Gold Premium Natural & Organic Fertilizers complement our Black Gold potting mixes. Our fertilizers are easy to use, environmentally friendly, formulated with natural & organic

ingredients such as feather meal, blood meal, bone meal and sulfate of potash.

Retailers can sell **Black Gold** mixes and fertilizers with confidence knowing that the finest ingredients and formulations have been developed to ensure maximum results for their customers.

Homeowners will be delighted with the high quality and exceptional value of **Black Gold**. Whether it's flower or vegetable gardens or containers, **Black Gold** creates gardening success.

- Apply seasonally to increase yield in organic vegetable gardens and container plantings
- Safe to use on tender plants

Available Sizes:

1.8 kg pouch (12 /cs; 36 cs/pallet)

Ingredients: Sulfate of potash, kelp meal, feather meal, bone meal, blood meal, alfalfa meal

Black Gold® Rose & Flower Fertilizer 4-6-2

- Roses and other flowering ornamentals will flourish with this blend
- Formulated with higher Phosphorus, the essential nutrient for rooting and blooming; and nitrogen for vigorous early stem growth

Available Sizes:

1.8 kg pouch (12 /cs; 36 cs/pallet)

Ingredients: Alfalfa meal, blood meal, bone meal, feather meal, kelp meal, sulfate of potash

GARDEN FERTILIZERS

blackgold.bz

Black Gold® Rhododendron, Azalea & Evergreen Fertilizer 5-5-3

- Formulated for citrus, avocados, grapes and fruit trees
- Promotes both vigorous growth and fruiting in container-grown specimens as well as in-ground plantings

Available Sizes:

1.8 kg pouch (12 /cs; 36 cs/pallet)

Ingredients: Cottonseed meal, blood meal, bone meal, feather meal, kelp meal, sulfate of potash

Black Gold® Starter & Transplant Fertilizer 3-5-3

- Formulated to promote strong root growth after planting
- Balanced, non-burning blend offers a readily available supply of nutrients and natural endomycorrhizae
- Helps growing plants to become better established and more effectively access soil nutrients and water

Available Sizes:

1.8 kg pouch (12 /cs; 36 cs/pallet)

Ingredients: Sulfate of potash, feather meal, bone meal, proprietary blend of endomycorrhizae

Sunshine® Natural & Organic Raised Bed & Potting Mix

- Designed for growing edible crops in raised beds, large pots, and containers
- Provides superior moisture retention and excellent drainage
- Natural & organic
- Contains our silicon additive RESILIENCE®

Available Sizes:

56.0 L (45/pallet), 2.2 CF/62 L (50/pallet)

Ingredients: Canadian sphagnum peat moss, perlite and dolomite.

Sunshine® All-Purpose Potting Mix

- Multi-purpose blend formulated for a wide range of outdoor and indoor projects
- Great for rejuvenating existing houseplants and new mixed planters
- Formulated with premium quality Canadian sphagnum peat moss
- Ideal for indoor and outdoor gardening and seed germination

Available Sizes:

28.3 L (80/pallet)

Ingredients: Canadian sphagnum peat moss, perlite and dolomite lime

Sunshine® Natural & Organic Flower & Vegetable Soil

- Perfect for growing herbs, vegetables, flowers, and woody plants
- Provides superior moisture retention and excellent drainage
- Natural & organic
- Professional-quality ingredients

Available Sizes:

56.0 L (45/pallet), 2.2 CF/62 L (50/pallet)

Ingredients: Canadian sphagnum peat moss, composted bark and compost

Sunshine® Natural & Organic Potting Mix

- Developed using professional quality ingredients
- Popular peat-lite formula with organic wetting agent and nutrients
- Essential product for environmentally conscious consumers
- Blend of Canadian sphagnum peat moss, perlite and organic wetting agent
- Ideal for vegetables, herbs and starting seeds
- OMRI Listed®

Available Sizes:

28.3 L (80/pallet)

Ingredients: Canadian sphagnum peat moss, perlite, dolomite lime and organic wetting agent

Sunshine® Container Mix

- For bedding plants, window boxes, patio containers & hanging baskets
- Specially formulated with a controlled release fertilizer for long-term plant growth
- Long-lasting water holding gel ensures improved water availability to plants
- Ideal for hanging baskets, containers and window boxes
- Blend of Canadian sphagnum peat moss, perlite, water holding crystals, starter fertilizer and controlled release fertilizer

Available Sizes:

28.3 L (80/pallet), 56.0 L bag (45/pallet)

Ingredients: Canadian sphagnum peat moss, perlite, dolomite lime, water holding crystals, starter fertilizer and controlled release fertilizer

POTTING MIXES AND AMENDMENTS

sunshinemixes.com

Sunshine® Professional Potting Mix

- Blends with native garden soil to improve aeration, moisture retention and drainage
- Concentrated peat moss provides gentle acidification of soil
- Wetting agent helps save water by optimizing moisture uptake and retention
- Ideal for hanging baskets, containers and window boxes
- Blend of Canadian sphagnum peat moss, perlite and controlled release fertilizer

Available Sizes:
56.0 L bag (45/pallet)

Ingredients: Canadian sphagnum peat moss, perlite, dolomite lime, starter fertilizer and controlled release fertilizer

Sunshine® Garden & Landscape Planting Mix

- Ideal for flowers and vegetable gardens, lawns, trees and shrubs
- Blend of humus, Canadian sphagnum peat moss, and compost

Available Sizes:
70.8L (45/pallet)

Ingredients: Canadian sphagnum peat moss, composted bark and compost

Sunshine® Canadian Sphagnum Peat Moss

- 100% Canadian sphagnum peat moss
- Suited to acid-loving plants
- Can slightly lower the pH of more alkaline soils
- Compressed bales for convenient storage and easy handling
- Improves soil water retention and aeration
- OMRI Listed® - for organic growing

Available Sizes:
1.0 CFC/28.5 L (100/pallet) (compressed bales)
2.2 CFC/62 L (50/pallet) (compressed bales)
3.8 CFC/107 L (30/pallet) (compressed bales)

Ingredients: Canadian sphagnum peat moss

SUNSHINE® MIX #4

Consistent Cultivation Mixes for Extreme Performance

Developed to be the best performing grow mixes on the market

Grow with Confidence

Sun Gro Horticulture is North America's leading supplier of superior growing products.

Each product is meticulously formulated to meet the needs of grower professionals, yet they're so easy to use that even beginning gardeners achieve success.

Whether you've got vegetables in fabric containers or large patio pots or an entire herb garden indoors under lights, Sun Gro mixes will help you grow bountiful harvests with outstanding results.
