

Hemp Bark-based Mix – The search stops here.

Sizes Available:
60 cu ft and
2.8 cu ft loosefill

Metro-Mix® peat-bark cultivation mixes are designed for enhanced root development in crops such as hemp.

They are the only professional cultivation mixes with RESiLIENCE® – our trade name for Silicon (Si) which is a beneficial plant substance already incorporated in the mix.

- **Metro-Mix® 830** – our most popular bark based mix is great for a wide range of crops grown in many container sizes from cell packs to larger pots
- **Metro-Mix® 830 Natural & Organic** – ideal for organic growing; OMRI Listed®
- **Metro-Mix® 852** – formulated for outdoor containers, large interior pots and long-term crops

Metro-Mix® 830 Natural & Organic

Contains: Canadian Sphagnum Peat Moss, Bark, Perlite, Dolomite Lime, Organic Wetting Agent and RESILIENCE®

Metro-Mix® 852

Contains: Canadian Sphagnum Peat Moss, Bark, Perlite, Dolomite Lime, Long-Lasting Wetting Agent and RESILIENCE®

Plants grown in RESILIENCE®, our trade name for Silicon (Si) – a beneficial plant substance, may result in*

- Earlier flowering
- Better root growth
- Longer time to wilt
- Increased stem diameter
- And recover quicker from infrequent watering

*Results will vary by plant type and grower practices
